C.C.Loizina, Esq. M.D.  
N a g g a r .  
Kulu

Dear Dr.Loizina,

It gives us great pleasure to inform you that at the Institute's Meetings of March 25th 1931 you have been elected Corresponding Member of the Himalayan Research Institute.

We are very much gratified to have you among our co-workers and hope that a fruitful scientific cooperation may result from it. The numbers of the Institute's Journal will be sent to you regularly on publication.

You are requested to keep our Paris Representative informed of any changes of address.

Sincerely yours

*Georges de Roerich*

Director.

Apr 24 1931

Dr Lozina,  
Paris.

My dear Dr. Lozina,

Many thanks for your letter from Bombay as well as for the book returned and the samples.

There have been some letters for you here which under great pressure of work I failed to forward last Monday, but more have come now and I am sending them herewith. (4) Since you are home in Paris now, there is probably no urgency about them. There is also a sample parcel containing Strophantose I sent by Dr. Lehtman, Elberfeld, Dorotheenstr. 38. As this medicine is no doubt for Mme de Roerich, we are keeping it here, awaiting to hear from you in this matter.

We hope that you had a nice trip and that the sea was not rough. Mme was glad to receive your letter from Bombay and thanks you for it. We much regret her health now, with the increase of temperature, is most worrying and she has repeatedly and unexpectedly very trying attacks. It is getting rather warm here now, and we all work already in shirt-sleeves.

I hope you have been able to secure the berrettes and I also shall be glad to receive the LATEST of Pathe's motor camera catalogues. Perhaps in sending you the money for the berrettes I may add also for the camera, but I would like first to see their very latest model described.
