my dear Dr. Roveich.

I am sorry I couldn't send the  
draft earlier. On consultation of a Bengali book  
I notice a few more details about Puranmi  
Gosain which I may send you, should you  
require them. Both the accounts have been  
colled, it appears to me, from the "Asiatic  
Researches vol. V. pp. 37-45." This work  
I am sure, is available at the library of  
the Royal Asiatic Society of Bengal and  
also in the National Library, Cal. (former  
Imperial library). Should you require  
the whole story essentially I may secure  
it, at my convenience, for you.

Hoping you are undisturbedly  
pursuing your valuable research work,

I am  
yours sincerely

your kind letter. you didn't  
send back the cuttings if they are of any importance  
to you. I do not think I will need them even. But  
for further information of Puran give you may consult  
the volume of the Asiatic Researches, I have quoted  
in my last letter. If it is not possible for you to  
secure the same I may help you from here in  
case you require it urgently.

I am sending herewith  
another cutting from the T.B.P. which you might not  
have <sup>noticed</sup> ~~observed~~. It was published on last Sunday  
and about it, I think, I spoke to you while  
here. you must be very busy with your work.  
I have written to Mr. Shibayer about your kindly  
examining the manuscript and would let you  
know his opinion about the same in time.

Thanking you for many  
favours kindly shown to me while here,

I am  
Sincerely yours
