Dear Sir,

I am in receipt of your letter of 6th instant and the matter had my full consideration. As a matter of fact the Burmese Prince should adopt to some profession to maintain himself as he is, as I understand, a very good <sup>painter</sup> ~~printer~~. He should try to earn by this art. I am afraid if he can carry on for long on outside help or by selling his furniture and books.

anyhow, I am asking my Muneem at Glen Rellie to help him with Rs.150/- payable Rs.25/- per month. This will help him to tide over his tightness for some time and in the meantime he should try to adopt to some profession to enable him to earn, at least to meet his daily necessities.

Yours faithfully,

M. L. Jalan

N.B. I hope you will not mind for the wrong spelling of your nomenclature as your full name is not with me.
