Stockholm November 1st 1952

Dear Dr. Roerich,

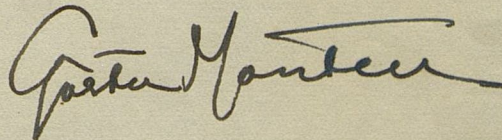

Many thanks for your kind letter. I was very much interested to hear your plans of new publications. We are of course extremely grateful if you would send us all the books you mentioned and I will do my best to arrange an exchange. By and by you could expect to receive the works you mentioned.

Very soon volume 36 of our Reports will appear; Schmid, Toni. The Cotton-clad Mila. The Tibetan Poet-Saints life in pictures. It will be a beautiful volume with the best illustrations we could have.

May I ask a question? Is it still possible to find a good set of Kandjur and how much should we pay for a set?

Dr. Sven Hedin sends his best regards. He still enjoys a good health. He is working with new books and keeps a vivid interest for old Asia.

Yours very sincerely
