Dr. George Roerich,

Dear Sir,

Unfortunately for me I could not go to your place before I left Katingping for Calcutta I due to official arrangement I had to leave suddenly & in a great hurry. I read in the newspaper that you were a bit indisposed. I hope by this time you are cured. I am again leaving for Tawang in a day or two. I have in my mind a desire to engage myself in my spare time in making enquiries & in preparing a statement of the MONPA people of your Tawang area. This is out of my personal wishes & I hope this will provide a little charm in my lonely life at Tawang. As you know I have little experience in the procedure of doing such work. Kindly let me have a little idea about the procedure which I should adopt to do the work & let me have a few sets of questions which should be replied in the statement to make it worth the name. With my best regards.

Yours faithfully

N. Q. Venkayju
