7.3.VI.1

Dear Sr de Roerich

I have just read in R. Stein's book on the Kesar saga, 'L'épopée tibétaine de Jéser' that your work on the Tibetan dialect on Amdo is now completed and possibly ready for printing and publication.

My friend and conferee Fr. Antoine Mostaert has kindly given me your latest address so that I could write to you and ask you for more information about this forthcoming dialect study. I am extremely interested and eager since so little is known on this language that is truly reliable.

I am also interested to hear what has come to the beautiful project of a new Tibetan dictionary by you.

Hoping to hear some information on these questions I remain

Faithfully yours

Paul W. Serruys
