Dear Dr. Roerich,

Thank you very much for your letter. In the meanwhile I got the first part of your book "The Blue Annals". I shall write a review of your important translation for the Journal of the Anthropological Society of Bombay. Let's hope that the second part with the Indexes will be finished soon. My article on Amdo dialects will appear in the first issue of the Anthropos in 1952. I let you know. Just I finished a little book on the Indo-Tibetan problem.

How are things going on in Kalimpong? How are the relations with Tibet now?

With my best regards

Yours sincerely

W. H. D. S.

Dear Dr. Roerich,

Thank you very much for the review offprints of my book.

From the "Times of India" I came to know that you are preparing a Tibetan Grammar. Which dialect would you use as the basis? The dBus dialect or another?

My manuscript "Mythen und Mysterien der Tibeter" is completed and I sent it to a publisher in Germany for the German edition. I try also to arrange an English edition.

Inclosed you find a short article on "Polyandrie in Tibet".

With my best regards I remain

Yours sincerely

F. Kern
