Dear Mr. G a r b e t t ,

Many thanks for your letter of the 23rd inst. I was indeed glad to see your kind interest in our cultural activities.

It gives me much pleasure to send you copies of the Roerich Museum Bulletin, as well as a copy of Urusvati Himalayan Research Institute's Journal and a catalogue of my Museum, which I request you to accept with my best compliments.

We hope that should you ever visit beautiful Kulu Valley and be in our vicinity, you will call on us, as Mme de Roerich and myself will be delighted to make your personal acquaintance.

I was also glad to read that you recollect mutual friends, and I am sure that both in Great Britain and the U.S. of America we have many more friends together.

Yours sincerely,

My dear Mr. Carbett,

Our letters crossed each other, when I had been sending you my book "Flame in Chalice". I appreciate very much your kind offer to help us in anything we may need in Lahore. Many thanks once more for your kind attitude to which we also full-heartedly reciprocate.

Verily we are all in need of the same benevolent "Good". Only the sincere bliss of the heart can solve the acute problems of humanity. In order to reach this understanding, all who cherish the highest conception of Culture must be in one boat while crossing the stormy ocean. I am very glad that you understand from my writings that we must call vitally all forces of light, peace and culture.

I do not know when I shall be in Lahore, but my first visit there will give me the pleasant opportunity to meet you personally,

Yours very sincerely,
