Further to my letter of June 14th, I presume that the sooner you get some material the better it will serve the purpose. In our files here there were altogether 13 letters, copies of which I am sending you to-day by boatmail. I know there were more letters but not all the files are at the moment accessible. If per chance we shall find them, we shall send them on too, but better base yourself on those we are sending now. Amongst them there are very characteristic ones of the noble mind of our dear Friend. I am also sending you by boatmail my article in Russian. No doubt you have some means for translating them. In case you come across difficulties translating, I am sure that Mrs S. Muromtseff (219 Montclair Avenue, Montclair, New Jersey) a cousin of Mme Roerich, will be only too glad to help you in this matter. But probably you have closer possibilities for translating.

I shall be happy if you will keep me au courant how  
this volume is progressing and if I can assist in any
