

I go 16th
Bangalore 30th
give so please
Supply early about
advt.

Leadbeater Chambers
Adyar
24 June 1928

Dear Professor Roerich

I was glad to receive your telegram and know that you were once more back in India. I expect some day in book form we shall learn all about your adventures and discoveries, in the meanwhile a very cordial welcome "home".

I do not know any one who has a set of Lucifer for sale though I have made enquiries. I spoke of it to Dr. Arundale and he suggests that we could advertise for them for you in "The Theosophist". That would

of course mean delay perhaps
for some months and I do not
know whether you want these
volumes immediately.

If you do not please let me
know at once and we shall
put the advt in the next
issue of the magazine.

("Complete Set of Lucifer wanted
please communicate with
Professor Roerich etc")
perhaps course in less formal
language.

With regard to the com I
have tried to get an impression
in wax for you but the com
is so defaced that it is no
use and so I am sending
a little drawing of what can
be deciphered on the com

2

If this is not enough for your purpose and you want it very urgently I will later on send you the com itself. I only hesitate to do so now as Dr. French attaches so high a value to it and it was her gift to the museum and she would not like me to take the risk of its loss.

I am sending you two numbers of our "Paris magazine" (also a copy of the French one.) we are trying to make the dress of the magazine

worthy of its message.

It's not easy to attain Krishnaji's ideal but this year we make some experiments - and in making those we learn.

I should very much like it if you would make a design for a cover for us. Simple strong and beautiful. If you like another shape for the magazine it does not matter - next year we can change the shape. I think to write something in English would be more welcome for you. With most cordial greeting and welcome to all at Hillside
Yours sincerely
Alice E. Adair
