Professor Nicholas Roerich,
NAGGAR, Kulu, Punjab, Br. India - ASIA -

Dear BROTHER:

As always, it was a great pleasure for me to receive your two letters of 31 March and 25 May.- When I shall have anything to communicate, I will write you with the same pleasure. - With reference to your later letter, I have meeting Sr. Da Rocha, secretary of this Museum. In this precise days they are very busy preparing a large French Exposition of Arts.- He told me that your six paintings were exposed until now and that will return to the public rooms jointly with all paintings (over 7000) now in temporality storage during the French Exposition which will remain 45 days. Also he told me that your paintings, as usual, will figure in the pages of the first official catalogue that the Museum are now printing. - As he has not any photo-reproduction of "Sacre de Printemps", he did ordain to take one, which deliver to me a few days after with his best salutes to you. - As soon as the catalogue appears I will send you a copy. - I feel very satisfied to serve you as sudden as I was able in this opportunity.

Regarding AGNI YOGA: The old publisher has in hand the translation of HIERARCHIE many months ago, promising to print it when he recuperate the expenses relating to AGNI YOGA edition. To my part, I am translating now HEART. If the old publisher want not publish it, I will seek for another editor, no questioning about the material translating work in order to be expanded the Teaching. It happens that this publisher has special clients-readers of apparent lectures of transcendental meaning. In the September edition of Revista PITMAN will be printed your caution article INFLUENCE, very adequate for this young readers so affect to radiofusion.- As I promised you, here is the address of two social groups which can receive beneficially some spiritual writtings and essays.

When do you like to send me THE FIERY WORLD, I will read its pages with sincere joy.

In spirit with you

PROFESSOR Nicholas de Roerich,
Naggar, Kulu, Punjab - Asia -

My dear BROTHER:

Your noble letter of Sep. 21 was in my hand a few days ago, during a short vacance, and, as always, it awake in my heart a real joy plus a feeling of gratitude because your first line "receive today".

Because I want not "returning surprises", as some months ago did happen with Miss Sina Lichmann, of New York, and for the same mistake, I have now a new address - better address, so I hope.

As compensation, I have received a pleasant surprise with your very correct Spanish article LA TRANSFIGURACION DE LA VIDA, which will be printed in the next Revista Pitman issue. - The Message to South America, already translated, will be also published, and your many reprints and booklets will merit my attentive reading.

I am anxious to know if you did received the parcel post 10 copies of JERARQUIA that the editor sent to you "registered", as they told me. Is, of course, understandable the many actual difficulties, but at your indication, I will manage to send you another copies.

Together with your estimable letter I did received a nice manuscript expressions from Mr. Gene Fosdick (Liberty, Indiana - FLAMMA) and another feeling of gratitude I sent to him from my heart in the response.

Very sorry to inform you that CORAZON are yet awaiting the adequate editor against my desire, but pacience will be the best mean in this time.

When some one ponder about your half century multiple social labor, its easy to feel pleasing amazedness; but when this some one ponder about the inner intención that pierce all your activities, then another sentiment appears enveloping radiantly the former feeling. You will understand this thought, not expresing here for unnecessarily gratification, but for afirmation.

Of all you reprinting material "The life of Saint Sergius" was the first to attract my attentive lecture. Wondrous Ego!

"The brotherhood of the magic of art" its unknowⁿ for me, but my first and full desire its to know Mikula and to march upon this path. Blessed are those that know and realize the four leadind paths to the Radiant City!

Good to know that, for one, already the Teaching its in every corner street, home and spot; in all parts are the real teachers awaiting in one form or another, and the worse the form, the best the lesson; but its better to apply this daily lessons. That is the actual great question for some one.

"Nadie se acuerda de Santa Bárbara hasta que truena" - an old Spanish saying, and never was this proverb so actual.

Not yet official catalogue of Museo Nacional to send you.

With cordial wishes. In Spirit with you,

J. Albuerne
