Ref. No.

Dear Prof. Roerich,

I thank you extremely for your kindness in remembering me and sending me an article for the first issue of my magazine - "SILPI".

I read the article and I am very much pleased with its appropriateness. I am using it for the first issue as the very first article because it explains my ideals of SILPI.

The magazine would have come this month but the Central Government is still considering granting permission to me for publishing the magazine. Anyway they cannot stop me for bringing out my magazine as the Provincial Government would sanction it as soon as it is formed.

I have got ready all material for printing the first issue but I must keep on hand articles for three issues to be on the safe side. I therefore, request you to send two or three more articles in advance. Moreover, I would like to have some of the blocks tri-colour and mono-colour of your paintings for publication in my magazine. I am sure you would be having there. After my use I shall return them safely to you.

Please ask your secretary to send me a list of persons whom you think would become subscribers of "Silpi", I expect your full co-operation in my effort.

With very kind regards,

Yours sincerely,

V.R. Chitra
Editor.
