April 16, 1965.

I am very grateful to you and to the members of the "Welt-Spirale" for your kind message on the occasion of my Sixtieth Birthday.

I appreciate the words and thoughts expressed by you and I am happy to know that your work is expanding and reaching new groups of people.

These days when gigantic new forces are manifesting themselves and have fallen into the hands of mankind only a profound assertion of humanism, and the illumination of our life by the lights of the Higher Reason can disperse the threatening clouds and resolve the selfish conflicts.

I take this opportunity to send you and to your members our cordial greetings and to wish you every success.

16th April 1965.

I greatly appreciate your and your members
kind message on the occasion of my Father's
Prof. Nicholas Roerich's 90th Anniversary.

It is most gratifying to see how widely his
work is now being acclaimed throughout the world.
It will take some time yet before the true
significance of his message is fully realised and
before the great heritage he left behind is really
understood.

His life was a glorious example of a
dedicated service of mankind and an intense quest
after Self-Realisation. He was rewarded even in
this life by transcendental contacts which made
his life infinitely rich and opened before him the
great vistas of man's evolution.

I thank you all for your kind words and your
dedication to these great ideals.

With my cordial greetings,
