Dear Mr. Latifi,

It is with great interest that I have read your researches upon an all-Indian alphabet, you have kindly forwarded to me. As every step leading to the unification of men, this proposal of yours should certainly be welcomed by all those who have the welfare of mankind at heart. I have no doubt that some day, and I hope this day is not far off, this splendid idea will become a reality.

Thanking you again,

with kind regards

Yours sincerely,

Dear Dr. Latifi,

In reply to your letter of Aug. 5th, I am sending you under separate registered cover two books: G. ROERICH, *Le Buddha et les Seize Arhats*, & G. ROERICH, *Tibetan Paintings*, both are by my brother. You may keep the "*Buddha et les Seize Arhats*" with my compliments, as well as the latest booklet on the Signing of the Roerich Pact by the Americas at Washington, which I also enclose.

As regards "*TIBETAN PAINTINGS*", we have only this one copy, since it became rare. After going over it, please return it at your convenience. Should you be interested to have a copy, we may try to obtain one for you through our Paris office. The price would be about Rs:18.

The seven Banners described in the "*Buddha et Seize Arhats*" are quite exceptional both from iconographic and artistic points of view.

With best greetings

Yours sincerely,

*S. Kundu*
