Time flies so fast that one can hardly realize the winter reached us already. My silence not with standing I often think of you and Sonia and send my kindest to you in your work.
Times are difficult but the harvest time is just before dawn we must remember this always.
You must not think that I have neglected to send you the remedy for colds of Mayfair. I have not but there were difficulties encountered in putting up together properly since the Japanese war, the effect was in some manner did not sufficiently solve the problem. But now I shall send you some later. They may be of use, though they are very far from being the ideal desired for. The problem of Hay fever is a very complex one since there are several factors involved and can hardly be solved in some one way.
When you have a cold try some of the methods and see which does you most

good may be useful in Physics.
I was doing lately on Kabbalistic

My Very Dear Brother

Many thanks for your letter. it is always a
pleasure to hear from you. The Journey
of Peace has become a reality and has a
great victory. Here are the great landmarks
at last and as such the only thing
worth working for lasts.
Someday we shall again work together, my
dear Brother and I look forward to this
day. So many things will change soon we
must try with all our strength not to yield
at the crucial moment. The crucial
moments are always the loneliest to stand,
but sunrise can only come after darkness.
I have been studying the early Greek Fathers
and it is so interesting to compare the
same fundamental ideas found in
all the teachings.
You ask me my ideas on the future? Well
one of the most significant factors
outside of what we know are the four
eclipses of the Sun and two of the moon.

taking place the 2 year. There is very significant
We must likewise remember that the New
Exploding Star (Nova Aurigae) has come in
about December (17th) Star inaugurating
the year of 7 eclipses. Similar
configurations took place in the 13th Century
about 700 years ago, and a minor one in
1811.
There are very important facts coupled with
the Numerical Values of 1755 = 9 and
'56 = 10.
Some astrologers place '37 as the year of war
Well, we must come when there are so many
indications.
Above Everything else, of course, our knowledge
of the Coming year. I know the time is
coming soon when we shall change but
unfortunately this depends how we
by mail.
I know how Mother loves your letters. She repeatedly
told me that they gave her real joy. I will
add that your work is very near my heart
and I trust we shall soon work together again.

The cultivation of Spiritual aspiration
the constant - never ceasing prayer of the
Spirit is the only force to carry Man
over all pitfalls and unforeseen late
obstacles.
This is the Strong force of Every force —
The Sacred fire of the Alchemists
transmuting the Lower Energies into
the Higher forces. Spiritual Alchemy
is one of the Sciences least understood and
yet it is quite real and is clearly
depicted by the Great Alchemist
who often purposely veiled His Workings.
The Greek Fathers often added: "Memory of one's
self Dies" as of great importance. and one
can readily see that in the desire to perfect
oneself one must constantly remember
one's deeds good as well as bad in order
to avoid making mistakes in the future.

Yours - with my best thoughts and

My Very Dear Brother,

Enclosed You shall find a menage
to Katherine which I ask of You, kindly
to transmit to her, I am anxious it
reaches her safely, since I know that she
will spend more time at the farm. I hear
by health is not so good (She had some
trouble with her tonsils) but with
proper care she will accord on speedy.
I am writing to You a long letter with
some questions that worried her, I know
of interest to you. By next week I
hope to have it ready. I have asked
R. to send you a book on Milano.
You would enjoy reading it, I know.
It has some bearing upon something I
shall send you.

Mother feels that in your special
line of Studies You ought to have
the data I am sending to You.
Compared to what we know now
a reminder will prevent repetitions.

It shall be a great joy for me my Dear Brother to meet again. but the time I dearly hear which we shall walk more closer and near fields and more pastures will open up! Is there something more precious than as Milcyan fathers to set up the Victorious Banner of Divine Peace. - that immortal Shining towards the Higher Life and always keeping in mind the Commands of Hierarchy. The Hierarchy of the Spirit. The most beautiful Staircase leading onward. The so called Lineal Guidance of the Master to his Pupil, that's joy to answer Him by keeping fast to the Juan we have going to be seen on the Ocean of Life! ——— —

I thank you my Dear Brother for the pronunciation of the Enclosed Message. -

And with my best thoughts
I love you as

very happy you loved my Buddha and believe it will and make me happy to expand on these "Subjects" I shall try soon.

Meanwhile the little Figure from Mother's Altar I am sending to transmit it with Mother's Blessings. It is so small you can even carry it on you should you go abroad.

The little Buddha is of Sandal Wood and I hope you received it safely.

With my best Greetings and love to Yourself, Sister Mother

My Very Dear Bradley,

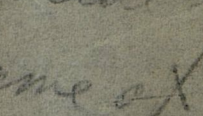

A short note this, but just to let you know we are with you in Spirit constantly. The Mars Period will come in Soon, let us prepare. Safeguard your new friends, be firm and the conditions shall change before we know it. The Master Hand is constantly at work weaving His next Design - Recently I have been looking for Copies of what the Stone came. I have found something of interest which has not been found before. It contains the figures of a Man and Woman Kneeling. The Woman Holding the Stone in her Hand. They are surrounded by Triangles with the three dots and the same details are upon their dress. I have found the same almost design in an ancient manuscript on Alchemistry.

Love

Yours

Here are many wonderful Days for us so Soon.

Yesterday we saw a Mountain called
The Cliff of Fingers (Iron Mountain)
The Solar Obs. Prof. R. has the camp
underneath the Mountain. He will be at
home this A.M. reading or writing. ——
Other signs are as follows. Back of our House
there is a Mountain with a Russian Y
on it like this  formed by a slide.
The name of the former owner of the House was
Henri Fenimore. whose martials H.F. was killed
last evening. Observatory lies on Longitude
77° E. the Longitude of Altai and
Jerusalem. Jerusalem is 31° 46 N.L. The rest
of many new of Pen I shall write later.

We Send our best thoughts to You all
Sincerely Mrs Schaffner

Love to you as Ever

P.S. We shall send you a Cast of Footprints of Lord Avebury
to your altar also from Mother's letters

[1935]

My very dear Brother.

Your letter has touched me and I am sending to you my thanks for the good thoughts Expressed. The Life of Spirit is the Only Domain that should hold our thoughts. If we but take this life as a School, where we can learn by deed and word how easy it is to overcome all difficulties how joyful it is to look ahead.

The day will come dear Brother when we shall meet again and we can work in that Spiritual harmony which is conducive to all true achievement. Setting Our gaze into the far beyond and knowing that sooner or later we must leave this Plane, can there be anything to frighten us to make us hesitate As Nikanja used to say. "since I must die then let I die I am under a worthy pursuit." That was the Spirit which animated the Saints of Old, burned at the Stake.

Mother was greatly touched at the parchment you sent and your words, as

well as your decision to fast on the 6th Oct.
What a Great day. 12 years. Astrologically
12 years means a complete revolution of
the Zodiac in other words the Houses take
the same position as they held twelve
years ago. This is very important since
it means a new cycle. You knew the
Stone was wrapped in a cloth with the device
"In hoc Signo." (Abbreviation of the "In hoc Signo Vinces").
(1145) It is said the Stone is not active in its full
power as yet since a certain Ray must
approach it. But we shall live to see it.
Victory is preordained this we know.
If only I could transmit to you the
happiness of My Spirit and the Joy
prevailing in Our Ashram in spite of
the tense times.

I close my Dear Brother
I have a little program for you from Mother
Albin but it is too large and must
send separately.

With my best thoughts to Yourself
Sincerely Yours
Satprem

My very Dear Brother,

Just because I was silent, you must not think that my Thoughts were not constantly with you. They most certainly were. It gave us the greatest Joy to hear of Your Noble Deed in saving the Life of a Child. Such actions, return a thousand fold hereafter. They are the messengers of Gods will the foundation stone of our Achievements. What greater Joy, what greater happiness can there be, than the realization that we have done our duty. I was going a long little bit for you, but owing to my own "troubles" was restricted in the amount of writing I did to quite a considerable extent. Why dont you go to Nuvar. Aquna farm it would do you a great deal of Good. You are so near to N.Y. there, the Spring in the Country is very, very good.

I hope to meet Lachey on safely, It was quite fresh.

The Diary was sent, it is a most curious document. We also send a rough Index. It is very incomplete, but were careful in order not to include too many facts and thus perchance confuse some important issues.

I have not read this document before and now it appears in quite a different light. There is a place where L. speaks of your "absolute sanity" and the great admiration this arouses in him. etc. Perchance this quality is not needed here anymore?! I have it in the Index and the Attorney can very ably use this. We have such places in the minutes where there is mention of the placing of Prof + Mrs P's. manuscripts upstairs [29]. (at the request of Prof + Mrs P) Now the withholding of this document can be but viewed as a very serious act. Can't damages be claimed for non delivery? These are (Mr + Mrs P's) manuscripts (material to be used for books, her notes) Damages must result from withholding her literary material. This "material" as you must see the collected fruits of Mr + Mrs P's observations, mysteries gathered from different places, sayings etc. In other words, notes, material for literary work in the future. ——— Cannot we claim damages for withholding the manuscripts so long. Perhaps charging so much, per day for the delay. ——— Was it a quote so long period? Likewise.

The Kansas report is sent. In Diary it says "The Report compiled by L. The work done by Mrs Bowen. It speaks Highly of Selection and Donations by many people to Kansas over 50 cars R.R. Fully three if not all. Not too long Kansas would say that the Dinosaur Egg & X.P. Andrews were only a purchase for $250.00 and not an Exploration. (The Egg is in Cat 2 room) for the above. At time Clyde's "Saucer" is very fine. Yes, There are many fossils to find and we are not happy that you should have such a fine specimen of the Great Auk.

Yes so anxious Dear Bartz that the day will come soon when you shall come here to be At Home. What a great joy it would be to have you. I have come to love our places so much. One does feel here in India the Great Reserve. The old traditions still live and even modern Civilization cannot obliterate the Great Accumulations of the Past. To live here and see Man Ever do I feel it — the Spirit of India. The present Battle is a great Step of Ascent. We shall walk into and thro and more Beautiful future when the Spiritual Menage, the only life of Immortality can be Unfolded Unhampered!!

Dearest Brother,

I wanted to write you long ago, but waited for a better moment. I see as the present time is it has many great possibilities. The war talk Center rages very greatly; Indeed it has very great sympathy for its cultural activities. The Center must be guarded and the Jews of in N.Y. the better beginnings must be safeguarded and tender plants for the attacks of the evil minded.
