Dear Mrs S u t r o ,

Mother asks me to thank you for your kind letter and to return you the enclosed. Unfortunately she was unwell and in bed for the last eleven days. As soon as she feels better, she will write to you herself.

A little album of photographs of local views is being assembled here for you and will be forwarded to you as soon as it is complete.

We greatly appreciate your interest in our work, which is progressing and a very large material has been gathered already.

• We often think of you and send you our best wishes and greetings

Yours very sincerely,
