19th February 1971.

My dear Dr. Chhabra,

Thank you so much for your letter of the 15th February 1971 conveying to me your kind felicitations and good wishes. I very much appreciate them and hope that we may meet again in the not to distant future.

We came back from Calcutta and both of us enjoyed our short stay there very much. In spite of the difficult, I should say, most trying conditions cultural life is still going on in its various aspects and people find the time and the will to take active interest in the Arts and allied pursuits.

We are well and I take this opportunity to send you both our very warm greetings and every good wish,

Yours sincerely,

(SVETOSLAV ROERICH)
