

Deeply Respected Svetoslav Nicholaevich,

In connection with your 75th Jubilee permit me to transmit to you through the Union of the Societies of Friendship and the Society of the USSR and India, this work which is dedicated to the memory of the great Humanist, and Artist, Nicholas Roerich.

In this book is made a small attempt to analyze only one aspect of the many faceted creative work of your Father.

The idea of the book is to show to the contemporary reader, the noble work of N.K.Roerich for safeguarding cultural treasures and humanity, not in an isolated way but against the background of the general tendency of safeguarding monuments of culture and from a professional juridical position. I avail myself of this occasion to transmit my greetings to your wife.

All health, energy and with my best New Year wishes and all further successes,

Yours,

M. BOGUSLAVSKY
