Gwalmandi

5th August 7

Lahore.....19

Dear Mr. Rorik,

I hope you remember me. The illustrated article written on you in November 44 is being enclosed herewith. This may interest you a little. My one temptation in sending you this is to revive the memory of my trip to Nagar in December, 1944. I am coming again to you. But this time, not as a tourist-professor.

About a year back I joined a friend of mine as partner in the FRUIT BUSINESS. He had been in the line for the last so many years. I learn you possess your own apple orchards and Export the fruits on a business scale. My mission of the trip is to ensure for myself if we can, in some way, co-operate in the line. At this stage I can only assure you that you may simply love our clean dealing and systematic marketing. I am already in correspondence with LEE & Manali people.

Hope you would kindly favour us with a return letter.

Respectfully Yours.
