NEW YORK, N. Y.

March 21, 1929.

My dearest Brother:—

Probably when this letter reaches You shall be getting ready for Your departure We, here, cannot patiently enough await Your coming! There is so much to tell! Whole hours could not describe through what a year we all had to fight our way. And it is only the beginning, although we personally consider that the worst is over. Contractors in this country are of a special specie. Why they are called "contractors" I do not know, because they never look at contracts. However, by a constant miraculous help, the building is up & is in the way to be finished. Poor Louis had to stand always the first arrows, being always in the front row of these constant battles.

It was most gratifying to see the response the invitations, sent out, called forth. We will begin to compile right after the Corona Tour. a sort of a symposium on Prof. Roerich in connection with this event, which is needed immensely now because of the demand. We are in need of literature & plenty of it too. So many want to know about Prof. R. & the Museum. The plans of Travis are very interesting but we believe with the coming of Prof. R. many of these plans will be changed to the best. But undoubtedly Travis is a very brilliant man & can be most useful. We are growing tremendously, especially now. Corona Mundi has an excellent secretary, who works now very much for the Roerich Museum, esp. for the Corona Tour. Travis recommended to us a very fine young lady, who studied rice with Frances & they both work in publicity. We also hope that Frances' trip to South Am. will prove a great success. With her abilities it will not be hard to make such success possible.

Travis is a wonderful boy. We are very proud that he is in our midst!!

Oct. 14. 1931.

2

My beloved Brotha,

Your dear letter gave us a great deal of joy. We are happy that You arrived safely at the Ashram. You will rejoice to learn that Katherine is approaching very actively the Works. She arranged the St. Francis room very beautiful. This room is now on the 4th floor. I shall ask her to arrange also the St. Sergius room in a similar way. We miss You here tremendously. You have grown deep into our hearts. The days pass in very hectic work the 24 hours become nine & nine inadequate for the fulfilment of the enormous scope of our program & we begin to realize that two hand & two feet are not sufficient for the scope of our activities. As Louis probably write to You T.M. has married finally. We did not hear from this "gentleman" since he left & it is a great joy & relief to be away from such people. Father's portrait is placed now in the Library & fits perfectly well the wall between the windows on River side Drive. This Painting, which You gave me before going away (yellow landscape of mountains) will be framed by Braxton. Please consult Father as to where to place it in the Museum. Brinton's lecture on the Russian Icon was very fine & he spoke very good of Father. Hall has proven to be a scoundrel of the highest order & we shall try our utmost to put him where he belongs. It shall be a lesson to other slanderers. It is time for us to strike & strike hard. Hall is a common thief, and as such known to all places where he worked. He made many crooked deals right here. Koerpel told us of some.

the man is absolutely mad from hate & malice. It is strange that Dr Korn delays the letters of Kall which he promised to send us some time ago. All these obstacles can be easily swept aside & even some good can come out from our counter attacks. Many undesirable members moved out & so many instead much more desirable moved in. Nikita's grandmotha lives here. Nikita is again here for a few days. He still accompanies Szigeti the known violinist. Prince Abeloff was here. He became quite a big business man. Your friend Kall was here. He married & lives in Connecticut. He is busy writing. New people are approaching very actively the Works. You will see from the reports of the Campaign Committees the active participation of the new coworkers. Koskar is back in Washington & the Koskarites seem to be dissolved in the hot air, which they themselves created around a luke-warm activity. I hope you like the Realm of Light. The cover of this Book worries me greatly. It is interesting in what condition it arrived in Kulu? The printing & binding is so much worse in America, yet we publish more books here, than in Europe. My hay-fever this year was extremely severe, but official reports state that never before there was so much pollen in the air as this year & suffering so heavy. That is on account of the unusual heat. I am left quite weak. Yet I am grateful that I dont get the hay-fever-asthma, which is a terrible torture. Please dear Brother write & as often & tell us what you are doing at present. With all my love, as ever

Devotedly Yours

Av.

Aug. 31st 1934. 3

My Beloved Brother Lumi.

I am so often in my thoughts with you all in the Ashram, that I am no stranger there any more. Knowing how busy you are, dearest Brother, I cannot insist upon letters from you, but I would appreciate deeply if you could find a spare moment & tell us of your work & life there.

At present I am in my yearly exile to the White Mountains for hay-fever. If you could find a remedy for this strange illness, which is claimed to be caused by the pollen of ragweed, you would help millions of Americans. I find however since last summer, that an inner fire seems to control the hay-fever in my system & brings it to a minimum suffering. You will make me very happy if you will write to me. As ever in Spirit & service with you, A.G.

Dec. 5th 1934.

My Dearest & Beloved Brother,

Your letter gave me a great deal of spiritual joy. It was so good to hear again from you. And you are right saying, that "the darkest hour is just before dawn." Yes, this time is the dawn of the New Age, Seventh Millennium. I shall follow your instructions & try the medicines, which you will send for my hay-fever, & I deeply appreciate your thoughts in trying to help me.

It is most interesting what you write about Astrology & the manuscript! How remarkable that such priceless manuscripts escape the hands of those professional astrologists who make the public a prey & their selfish ends. It is remarkable that the year of 36 is marked specially in the Horoscopes you mentioned. Yes, there is very little time left & yet so much to prepare for this year, which is pointed out by the Scriptures & Pyramid as the consummation of the greatest ideals & hopes of mankind for centuries.

There was never a time greater than we present we, for now the entire world is involved in a conflict unprecedented in the history of mankind. It is only very sad & witness the forces of darkness bind so united, whereas the same cannot always be claimed by those who serve the forces of Light. Yet we know from ancient prophecies that victory is predestined & Light, & we can readily imagine how much energy these Exalted Ones, who always helped humanity, must spend & labor & make this highest ideal of mankind possible & attain. I can imagine how busy every one of You is in the Ashram & how much I would want & share with You all Your daily tasks. I am so anxious & see at least a few photos of Your new paintings. If it is possible & send me a few, I would deeply appreciate this because I love Your art very much.

Thank You again for Your good thoughts & wishes. Your letter made me very, very happy! In spirit & heart ever

with, Your brother Ar.

Jan. 23d 6

My dearest & most beloved Brother Jno.

Verily, Glory to You for bringing into the Service this wonderful soul Anna. Her devotion & loyalty is truly blossoming now & she is fearless in her efforts to help the Three Shields.

Miss Lowensberg was here & wanted to know whether You still want to have her indexed cards of occult symbols. She seemed to want them. I shall speak to Anna. & we will see whether a copy of the cards could be made, then we will give her the copy & the original keep here or send to You, whatever You will decide.

This is just a short note of informing You of Miss Lowensberg's inquiry of the cards.

All my Love to You, Ute. & Yar.

Always in Service for the Three Shields Your brother

A.

March 19th 1935.

My dearest & beloved Brother Lemuel,

Thank You from the heart for the powder the burner, which is so beautiful. I shall use it as soon as the hay-fever begins & am sure it will help me.

Katherine showed to me Your portrait of a Lama, who looks so peculiarly familiar to me, yet I do not remember ever seeing another portrait like this. Even the photo shows the most unusual mastership of Your art. It is full of light and rhythm, especially rhythm! This portrait is indeed a masterpiece, my Brother & if I could have a copy of the photo, this would make me exceedingly happy.

My thoughts unfailingly reach You, for I feel Your good thoughts very often. And if You will see me in Your Astral sometimes in the subtle body of course, do not be surprised, for I have learned to connect that particular space between us, for the sacred fire of our Lara's heart became the very Bread of Life for me. Please tell me of Your work! You know how much Your art & scientific & occult work always meant to me. The times are hard & pressing, but the sharper

the thorns press into the heart, the greater and brighter is the flame. Probably the heart of Lord Jesus was shining like a wonderous star in the moment, when He suffered the greatest injustice. Thus we learned, taking as an example, the resplendant deeds of our Blessed Guru & Tara, to go through life with joy. I will appreciate tremendous. by a letter from You Beloved Brother. And if You can send me a few photos of Your paintings, this would be indeed a joy as sent for me. The rhythm You expressed in that portrait of the Lama is really amazing! We are very happy to have with us our dearest Sister D. She brought with her something which can not be defined in words from the Ashram. We are speedily approaching the greatest year in the history of mankind. So tell me Your thoughts about it! Am sending to You my love & best thoughts. As ever in spirit and heart with You, A

April 26th/35

Most Beloved Brother Lucien,

Your dear letter & the photo of the 2 Tibetan women gave me great joy. Your art has really grown into a most unique & understanding interpretation of human beings, their characters & remarkable landscapes as back grounds. How I wish I could see some of your last paintings!

That which you said about Armageddon is certainly correct, & how timely the Pact was signed by all the nations of the New World! This is indeed a great victory! Yes, dear Brother, fortified & armed by the Shield of devotion & the ray and & love to our Blessed Master,

me Bdrich Tara & Guru, we shall achieve one victory after another.
Every last Saturday there is a meeting at Stires' house where we all meditate. Last time we met Manly Hall there & had a long chat with him. I like him also very much. He is so simple & human, & yet possess such great knowledge. In May he will give a series of lectures in the Pythian Temple, & I will try & attend them, if time will permit. We will give the package you mentioned to Katherine, as soon as it arrives.
Please send me some more photos of your paintings.
With love & best thoughts as ever in heart & Spirit
With You, Your brother
Ar.

May 12th 35

My dearest Brother Lunon,

Your last letter gave me special spiritual joy & I appreciate deeply your very kind words. It was especially good to hear your thoughts about the change of things & the letter & very soon too. And your statement of the crucial moments at present is absolutely correct, but the dawn of a New Era is already breaking up the present darkness. Most interesting is that which you said about the eclipses, how they coincide also with the events, especially the prophecy of the "shooting star" which is so definitely marked in many commentaries & the Bible. It was a great spiritual joy to learn that our Blessed Lord approves of my efforts in the research work in the Scriptures, & that this work is near your heart too. In these extremely strange & tense times when the spirit of mankind is tested anew before the Great Year,

the sacred flame, which burns in the
hearts who guide us is the most pre-
cious, the most needed substance not
only for our existence but for our very
survival. Because verily to be with
that flame & be kindled by this eter-
nal joy is really to be alive. And
now when the thousands & thousands
of years of struggle between the Rep-
resentative of God & His enemy ha-
ve reached a climax, the old ser-
pent will be smitten by Him, who
is like God in the final battle.
All the Scriptures & symbols seem
to point out this battle & the hidden
places are beginning so clear &
simple in their interpretation. Especial
ly interesting are the ancient pole-
mics regarding the Messiah of
our age. Some point out through the
Kabbalah that Moses will come
again to slay the serpent, some
say it will be Joseph, some
claim King Solomon, some

13

just the Sacred letter M.

May 24th

Am sorry that this letter is so delayed. There were so many things & attend to & so little time & concentrate on a letter of real importance. Last Thursday May 16th Katherine & Inge took me in their auto & D. & Mrs. Johnson & Troy, where we stayed a day & returned the same day all together, Mrs. Johnson, her baby, Katherine Inge & myself & Brookfield, where I stayed over the week end & returned Monday & N. Y. It is so beautiful now on the farm, so peaceful & I had a wonderful rest there. Then this week arrived Your letter with the enclosed letter & Katherine, which I transmitted & her yesterday personally I deeply appreciate this last letter of Apr. 29th & am very anxiously awaiting Your next letter. It shall be also for me my Beloved Brother, a special spiritual joy & meet You again. Katherine gave me some time ago the book on Milarepa & I shall begin & study it soon. It is very beautiful what You say about Guruship. Verily we all who are so privileged in this life & build on

foundation upon the Sacred Flame of our Blessed Lord, Tara & Guru, build upon a Rock, which is eternal in its cosmic substance.

It will be always a joy for me to do any thing of service to You. If it were only possible for me to have for my shrine a small figure of Buddha which could be sanctified by being for awhile in Mother's room, this would make me very happy & help me during my daily meditations & prayers. The time is tense, because the arrow is ready to strike the shield of the enemy. Miss Lounsberry was here & left a set of files of a sort of encyclopaedic explanations of occult names etc. She asked that because this work is hers, she would appreciate if before sending the same could be copied & a copy given to her. Then she had also left a folder of unimportant matter. So, dearest Brother, whatever Your decision in this

matter shall be if gives me joy to fulfill. Meanwhile I shall keep it with me. Of course it could be copied here if You so desire & a copy given to Miss Lounsberry. She is very happy & apparently in good circumstances. Her boys have success & she writes more now. She asked me to send You her best greetings.

We expect Lofr. & O. the first week in June & we await impatiently to hear the results of their trip to Europe.

I tried injections against hay-fever so far 2, but the reaction is very bad, I feel strongly that they injure the subtle body. There is one thing for me to do in the summer & that is to go to the Mountains, so this summer I may go again to Bethlehem.

In spirit & heart ever with You, Your devoted brother Av
My love & greetings to dear Brother Yar.
Ludmilla & Raya.

July 28th/35

My very dear Brother Lune.

This is just a greeting from the heart & Yrs. With all the wonderful indications which come & my memory at present just before the 12th Anniversary of the 3rd inf, we stands out so vividly, how Yrs shall be called "the Eye of the World". In Yrs last letters I feel how tender and manly Yr Spirit has risen, a Spirit truly of a Mahatma & it is such a joy & realize that.

In devotion & loyalty & the Three Shields, I am as ever Yrs in brotherhood

My love & Yr.
Ludmilla & Kaya

A.

June 8th 35.

My beloved Brother Lincoln,

I guess very soon I shall begin to use your medicine for hay-fever, because this year it is coming much earlier. The 2 injections I had are bringing the old ragweed much earlier. It is a good thing I had sense enough to stop these injections in time to do further harm.

Radna went this week end to Brookfield. She made some excellent contacts there for the school.

I will try to borrow this summer the new 5 vol. edition of Zohar & study it in the White Hills, also the Shilarepa book.

It is very strange but I find all the time the most amazing data regarding the Coming of Messiah in various books, apparently about different Names, yet we know

them all & be One. And they all point out the One Great Soul, which lived in those Heroic bodies, who always were the most advanced Leaders of mankind, leading mankind during unprecedented famines, leading a nation out of unheard of slavery, ruling the entire world by the power of wisdom, saving the world from wild hordes of Tartars, who would otherwise conquer the entire world etc, etc. Always at the foreground as a saviour of mankind from its arch-enemy. Verily a true Saint Michael!!! Beloved Brother, I do think of You & Your kind & good heart so often & do miss Your company very much.

As ever in Spirit & heart
With You,

My very best greetings to Ludmilla & Raya.

My brotherly love & Yor.
& Raya & Ludmilla.

June 14th/35

My Beloved Brother Lunc.,

It is difficult & describe the joy Your letter gave me today. All the data are verily of cosmic significance. Please send me a photo of the portrait of this Lama. When I saw it for the first time I thought I recognized him, so familiar his face was & me. Well if we did not meet in this life, we have a mutual feeling of reverance & the same Blessed Tara, which brings us close in the realm of Spirit.

Knowing how busy You are, still I ask You very much & tell me some more in the same lines.

The return of the Chalice is the first trumpet call of Messiah's Coming. In loyalty & devotion & the Three Shields, I am ever

Your brother A.

Please excuse this short note.

Will write soon!

My dearest Brother Lum.

It was such a joy to spent the week end at Aruna Hill! It is so peaceful & pure there, a real blessing! Amrita has grown tremendously in spirit, my dear Brother. She has walked the path of devotion & loyalty & will reach very high. All the glory to You for guiding this fine soul as You did. We have in Amr. a very remarkable worker in the Service. She has developed in her spirit all the qualities of a true disciple of the Three Shields. I know how happy You will be to learn that our hearts are full of joy & we really feel victory very close. It will be easier for us Blessed Three Shields to build henceforth with hearts which are filled with Love. My thoughts & prayers are ever directed to You all. Your faithful brother

My love to Lotus. & Kaya.

A.

June 26th/35

Beloved Brother Lum.

I will write shortly in details. We are very busy at present because of this new attack. But I know everything will turn for the best. The tension is extremely great, the Battle of Armageddon has begun. Every manifestation of true friendship & love is especially precious now, for it strengthens me; and we feel the blessed thoughts of you & Guru & we know how heavy their Cross is. And we understand how invincible are the Three Shields & all those who cover themselves with love & devotion to the Trinity.

With love, as ever Your brother Av.

July 24th 1935.

My very dear & beloved Brother,

Your letter of July 2nd & the figure of Buddha from on Tara, with Her Blessings & from Her Altar gave me undescribable joy. This Sandal, as usual, always, came in a very needed moment, for the last few weeks especially were extreme ly difficult. Things have happened which really puzzle me, for I cannot comprehend how any human heart which builds its Temple upon devotion to an accepted Trinity suddenly begins to pull out of its foundation the rocks upon which this structure stands. The case of Gal. was an extremely trying one. Of course me's own devotion only becomes strengthened at such manifes-

tation of utmost non-understanding of primitive spiritual laws). But the heart aches for mankind in view of such unbelievable things. Mother, as usual, foresaw that also. Her warnings regarding Gal. were very austere. There are many other things which puzzle me, but I throw all these things into the fire of devotion & love & the three shields, and the fire only burns brighter from these strange materials for fuel.

Some day we shall discuss these things personally & may be You will be able to explain & me certain most peculiar human reasonings. Meanwhile I am sending to You my very best thoughts & all the love from the heart. It gives me great joy to correspond with You

& I am looking forward & the joy of receiving the letter on the subjects You touched before. I do wish I could see Your new paintings & Your plantings of medicinal herbs.

The Alps are wonderful & they do help my sickness. I am really sorry that I have listened & the physician's persuasion & submitted myself & injections. If two of them have done such an harm, You can imagine what a hundred can do & a human being!

Please transmit special greetings from the heart & my dear Brother Mar. Ludmilla & Kaya.

As ever in Spirit & in devotion & the Three Shields

Your brother A

Sept. 5th 1935. 25

My very dear Brother Lum.

I read your last letter many, many times over & your discovery in the Casket is certainly remarkable. Just in a month from now will be 12 years when this Casket was brought to our Beloved Grove & Tara. So many beautiful manifestations took place these years! So many wonderful Sendings have come in due time, according to ancient prophecies, & therefore my heart aches when after all these years of Blessings & Highest Protection, some of our closest co-workers manifests so little understanding & the most primitive principles of Kinsarday. It is like a giant crawling into a child's dress. But it is wonderful to feel the closeness of the High Presence of the Three Shields in these unprecedented times.

In brotherly love & unswerving devotion to our Trinity, as ever

Your brother A.

Sept. 7th/35

My very dear & beloved Brother Linn.

Your letters give me always so much joy & I do thank You for Your good thoughts. It make me especially happy to realize that happiness & joy are supreme at the Ashram, notwithstanding those very tense times. So my heart feels also only joy, for my spirit is strong with love & devotion to the Three Shields.

I deeply appreciate that sending of the little Buddha, which I carry always on me. And now I am awaiting the larger figure, which I shall keep at my shrine most sacredly.

Your profound knowledge of the sacred signs touches me very deeply & I do appreciate Your letters, for they bring always some revelation of the hidden Truth. In love & service to the Three Shields, as ever

Your brother

My brotherly love to my dearest Brother Yar. Ludmilla & Raya.

White Mts. Sept. 26th 35

27

My dearest & beloved Brother Lune. —

I cannot leave these Mountains without sending to You special greetings from the heart & tell You once again that I enjoyed very much Your dear & spiritual letters, which I read & shall read again many times.

I always felt the beauty of Your spirit & now in these difficult times we feels also the strength of Your spirit & the joy of Your heart. Thus truly we shall walk, following the Three Shields, in joy & in harmony with united souls. It is really remarkable to witness how true devotion burns all the obstacles away like hoar & arms a faithful disciple with a smile to greet the glorious future & pass by with the same smile the dust of treason & mad envy.

It touched me deeply Your expression of joy in these dark days. Thus we shall with joy too burn the darkness.

In love & devotion to the Three Shields Your brother, who constantly sends You his best & loving Thoughts

A.

Oct. 3rd 1935.

28

My dearest Brother Lune. –

When we read the Teachings of Ten years ago, we is amazed & find there the exact description of what times place now. But even this will pass & will be turned by the Blessed Hand of our Lord & the best. This entire matter is one of dearest inception. And how easily we can avoid such self-destruction! Just by a very natural feeling of love & devotion & the Sword, which nurtures us & protects us like Parents do their most beloved children. I am certain if this will continue some we will land in a lunatic asylum. For we cannot go against the Three Wishes & be sane. Thus we can calmly await the Dawn, which is so close. Rad. Aur. & Mod. are splendid in their devotion

New ones will come in hundreds
& take place for very departing
traitors. Already so many new faith-
ful friends are burning with fiery
love & devotion to the Three Worlds
because of these unprecedented difficulties.

Your letters gave me great joy,
Beloved Brother. There is a great
light burning in Your Spirit, which
gives joy.

Please transmit to Ludmilla &
Raya my very best greetings.
Every devoted word now days is
especially precious.

In joyous service to the
Three Worlds, as ever
Your faithful brother

A

Brookfield, Oct. 27th 35. 30

My very dearest Brother Lim. —

Am writing from Amr.'s farm, where I came out for a day to discuss the many problems on hand. It is a joy to tell you, that we have in Amr. & Dage & in their friend Sch. very devoted & faithful warriors for the Cause of the Three Shields. And especially now in these dark days of treason & mad blasphemy, such devotion & loyalty is very precious.

Your letter of Oct. 1st reached me here & I am very happy to learn that the figure of Lord Buddha from Mother's Shrine is already on the way. This figure will give me additional strength & comfort, for You may easily understand how much such a sacred object from a sacred place will help me at present, when the cross is not easy to bear, because of the treason manifested by people who were but very recently so close to all of us. But even this is for the best, for we know, that as usual the

Blessed Hand of our Lord will turn these present difficulties into new possibilities. Already we can see how the old friends are kindled with new enthusiasm & stronger desire to manifest their devotion to the Three Shields & many more good signs appear now because of Tactica Adversa. In Amr.'s dining room hangs on the wall an old plate with the sign In Hoc Signo Vinces, in the far distance is the Temple on Mount Moriah, near is a bridge with 7 figures in the foreground apparently warriors, Romans. The other plate depicts Moses & Aaron before Pharao, pleading for Israel. Both plates Amr. says were bought by You in Marseilles. Yes, dearest Brother, the battle is on & the sign I.H.S.V. is ever before us. Deep within our hearts burns the knowledge of Victory & the joy of the Glory to Come.

In devotion & loyalty to the Three Shields & with all my love to You, as ever Your Brother

A

Dec. 12th 32
35.

Most Beloved Brother Linn. —

It is with special joy that I am sending to You my brotherly love & devotion for this Coming Year. And although we experience at present the most difficult period of our service, still there is joy burning in our hearts, for we fully realize how glorious the future shall be. Verily the time has come to gather the stars of Bliss! And as it was Ordained: "... to walk to the gates without turning back is Our Path" so shall we continue to walk! I know You will be very happy to hear of the wonderful devotion our dear Sister Anr. manifests, & her very important help & her direct work with the Lawyers (Kart. & Sch.) "The Pedestrial Light is great;" & in this Light, I am sending my brotherly love & best wishes for a victory in the Name of the Three Shields.

Always in spirit with You
Your Brother A

April 10th 36. 33

Beloved Brother Linn. -

Your very dear letter gave me so much joy. All the letters from the Ashram are always a festival for the spirit. I am glad you feel somewhat better. You are doing a wonderful work in helping our lawyers & strengthen our case by all the valuable material you are sending to them. Thank you, dearest Brother, for the music. It just came in time! It seems while the slander & persecution was practiced under the ground & in the usual whispering way, the enemies were engaging the evil work in darkness, but the moment we brought this mess to light, then began to ask for delays. Everyone sees now clearly where "our Hand is betrayed." As you said "in this sign we shall conquer" so it shall verily be. Amr. is simply wonderful in her fiery devotion & it is always a very special joy & go to her home, where there is such a pure & peaceful atmosphere. Even the animals in her home are unusual. This is just a short note of greeting to you from Brother Ami Ar.

M. M. LICHTMANN
310 RIVERSIDE DRIVE
NEW YORK

March 8th 34
37.

My very dearest Brother Lunn..
Am sorry to write this letter in bed, but this is a veritable no-man's land & arrows of hate fly freely around here. The fact is, the trio will not stop at anything to do as much as only possible harm. There is one way only to stop their destructive plans by construction. If it is difficult here, somewhere else. Already Arsuna is beginning its construction activities. There Rad. with her group starts this excellent constructive work in Indiana (N.J.) Mod. too works in Boston & Philad to create

2) upon the same flame & ideal counter attacking actions. And before long every where will be kindled the Watch Towers with a calling fire, like the flowers of Tirnir. It is wonderful of you, dearest Brother so willingly & offer your assistance & Arsuna. I have such a tremendous faith in the most unusual success of this Center it is really difficult & describe this feeling, which is more of a positive knowledge. It will be just the very right thing for Arsuna & get all the Tibetan objects you mention ok, in order & make

3) this Center still more unique. Every one in connection with Arsuna in Tulsa & elsewhere is just filled with enthusiasm Now I am awaiting & see at least the photos of your latest works. It would be a joy & have them here. The latest photo of my Guru's "Armageddon" shows an unusual masterpiece. Even the photo shows the fiery quality of this Painting.

We hope this week & settle the question of space for Arsuna, & then the real work will begin "in a fast hyperspace".

4) Please tell me, whether Nur Jahan Begum, known as Nur Mahal was Aur. It would not be strange at all if old real & true friends would meet incarnation after incarnation, serving the three Chiefs in fullest devotion to the Great Lord.

Thank you again for your letter which made me especially happy.

In heart & spirit with you, Your

A

My very beloved Brother Lama.

These days of unusual tension are also filled with special devotion & love to the Three Shields. Just as a great light casts a great shadow, so very often a great cloud brings great flashes of lightnings. Every time I look at the little figure of Buddha I am so grateful to You for making this wish of mine possible. For a long time I wanted to have a Buddha from the Ashram & now I have one from the Altar of my Blessed Tara.

Am sending special thoughts of love to You, Yar. & the girls.

As ever Your brother in devotion to the Three Shields

A

My most Beloved Brother Lama.

Your last letter with the drawings of the 2 figures & the Iron Mountain sent by Katherine arrived yesterday, & I am grateful to You with all my heart for this very special letter, which gave me very special joy.

I am especially joyous to hear that You are going to send me a larger figure of Lord Buddha from the Blessed Tarna Ji Altar. I shall cherish this figure with all my heart. The little Buddha I carry always with me. I feel & know that everything You say will take place soon.

We are upon the threshold of great events & the firm devotion to the Three Shields helps us to glory of the future & to guard with a smile the obstacles of today.

In heart & soul with You,

Your brother A.
