Dear Mr. Roerich,

It is to express my deep sorrow for the sad demise of Prof. Nicholas K. Roerich. He was truly a great man. All along in his life, he studied, admired and presented all that is best and noblest in our Culture. He connected the present with the past and helped on increasing the purpose of the future. By his death India has lost an illustrious and adopted son of hers.

But he is not dead. His career remains as an enduring monument of human energy. His thoughts and works survive and will leave an indelible stamp upon the minds of the generations to come. They will be as lights set on a hill illumining the moral atmosphere around it.

Please convey my sympathies to Mme. Roerich as well.

Yours cordially,

  
Mahendra Nath.
