Bangalore, India.

Dear Dr. Roerich,

Please accept our congratulations on the high Award, the Calcutta Art Society's "Medal of Honour" for ART AND HUMANISM presented to you by the Governor of Bengal. We are happy to know that not only your precious work of art but also your contribution towards better understanding in human relationship have found a well-deserved recognition.

ART appealing to men through beauty and HUMANISM through action are a blessing to mankind. Both these wonderful flowers make our life beautiful and valuable. So the Light of Culture and Humanism continues to shine on earth, heralding the approach of a new world. We feel it is worthwhile living exactly now, at a time when through its need of help every domain of our world is calling for the contribution of everyone.

Your friends in Hamburg thank you, dear Dr. Roerich, for the Light you are spreading. May it help our world to grow brighter. With kind regards and our best wishes, we are,

Sincerely yours,

A. Poblocki
