It is coming out for the past many years and has a wide circulation within India and in outside world. Its Special Foundation Day Number on the occasion of its forty first year will be coming out of Press in the last week of July and cover many subjects such as mentioned above and will be profusely illustrated.

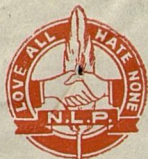

I shall be grateful to you, if on this occasion, you can send us something from your pen on any of the above subjects. I know your profound interest in movements such as National Integration, International Understanding, Education and culture would prompt you to favourably respond to my request. I expect material for this special issue to reach me latest by 15th of July, 1964.

With best regards,

Yours sincerely,

Radha Raman
