Dear Friend: -

Today I received a letter from K - with some seeds in it. If the letter had contained a large check I could not have been more pleased. I am so grateful for them, & joyfully planted just half of them (saving the other half) - in a part of my rose bed. When planted I dedicated them to the "House of K" and every day I will attend them with loving care. We have wonderful roses, the monthly kind - tea roses - and I always feel that they are a gift for we love them so & take such good care of them.

I cannot put in words my great-great disappointment in not getting to see your father. I had counted on it so much that I was really grieved not to. But please

convey to him my best regards - also to each of the others. Just because I never hear from any of you is no reason you are not in my thots. Each night before I sleep I always mentally send you all my blessing - for I never close my eyes - no matter what the hour is - but what I read a few lines in either Hierarchy or Agasi Yoga or Shamballa - you know that I just love the book Shamballa - it is one of my prize possessions + it seems to bring me so close to the Teaching. This has been + still is a trying time for us as it is to many, and the only help we have is to study the Teaching. I am trying to help in Cincy by having people read your Father's books - trying to sow seeds of truth that will grow in the future. K told me that you often thinks of me but she forgets to send it but that is alright - I could never forget the many happy hours we all had - + how very much I owe you for the real Teaching. I am also reading the S.D. from cover to cover - just because I feel a great inner urge to do it. I have your Father's picture hanging in my room + I see it all the time. I am so thankful to have known him. My blessing + love to all of you - Fanny.

This letter crossed one of yours + I'm glad it did.

Dear Friend:-

Trusting that this letter arrives at your home before Xmas - I greet you all in love and devotion. While we are actually separated by many miles, my thots are so often there that I do not feel the great distance.

No doubt K told you that my husband & I visited her in Conn. We had a fine visit and we both love her country place. I feel that it was a good thing todo for K to secure such a fine place. When I say fine, I mean so comfortable & resourceful. I am sure you will like it and I only hope that some day we will all be there together in peace and harmony. K seems to be so contented with it and it makes my heart glad to see her so splendidly located & happy with it all. We liked Conn very much.

Ware for Cincy news. - All goes fairly well - all busy as ever. But this mailer I have a new interest that I am so glad to tell you of. Three of us - Mrs Louise Biles, Mrs Fred Pfeffer - + "me" - have formed a study group - meeting each Monday afternoon from 1 to 3 - studying "The Heart" - We began on my birthday Oct 1st + up to date we have finished verse 180 - No one is teacher - we each take a turn at reading aloud and then discuss each verse as we go along. We do not speak of it to any one for to us it is a sacred hour + we have each pledged that hour + we keep it - only letting sickness prevent. Of course we don't pretend to understand it all but we do get a great deal - right or wrong - we don't know. Sometimes we go back + refer to Agni J or Hierarchy - + they explain some line. But those two hours fly on wings and we all love it so and come away so happy inside. Aside from all self interest, I feel that the three earnest devoted people do generate a benevolent power and

that goes out to help others as we are helped.
I am much interested in the Banner of
Peace - and am trying to do my share of
spreading thot to it. Yesterday I was invited
to a luncheon of 400 ladies - in talking to
the one next home - (later in the day) I
found that the home of the B of P + wanted
to know more about it + also of your father. How
wonderfully our heart interests attract others.
So will you please send us a helpful thot
for our Monday study group - Please tell your
father that it is a seed sown in Cincy.
If Esther is still there, give her my love -
and each one of the rest of the family -
To each and all I send a Christmas
greeting from Cincy - and you will all be
in my thot many times -

Always - Amy -

A Merry Christmas and
Happy New Year to all.
The weather was so dreadfully hot this summer
my seeds did not grow.

P.S. I want you to know that on Oct 24 your face stood right in front of me so I sent you a birthday greeting for the first year I knew you, you told me that day was your birthday. I hope you had a happy day. I would love to know of your work for you must surely be doing fine work there.

Dear Friend -

August 14-1935.4

K has just told me of your request and I gladly promise you that I will never reveal any thing that you tell me or that comes from you there. I also promise that all my contacts on work of any kind I will consult K only - taking her as my channel to you & the Work. So please don't worry - I will keep my promise for you have always had a special place in my heart and even if I never see you again our friendship [illegible] upon the inner plane is always sincere and beautiful. It is nine years since I met you and it changed my whole life for the Teaching means so much to me. I often wish I could have you here to explain things to me one is that I dream of the Teacher so often. There is no room for me to tell you all the details of each dream but night after night I dream and altho I see the Teacher - I never see the face nor do I ever remember the words but I wake up & know that I dreamed of the Teacher. I am so hungry for the Teaching that I

am always sad when I can't remember the rude but still I am happy to know that the Teacher was in my dream. Once dream was so plain – 3 Teachers stood together & then another one was just coming over a hill right to me – when the Teacher was over the hill up to the waist – I woke up – You understand this 4th Teacher was only Jesus revealed to me – It is so plain that I don't believe I will ever forget it. But I always think of the Teaching before I sleep & I suppose that is the reason I dream. I hope you understand this as I mean it for it is always so real to me.

I suppose K has told you that I am trying to spread the idea of the B of L & your Father in Cincy – it is the only way I can help now. Please remember me to him & your brother also – and to your Mother too altho she doesn't know me. Now don't worry – I am only happy to be a link with you in the Work – and am thankful for the privilege – I will keep my promise – Love from Amy

My dear Friend: Ever since I signed that pledge I have wanted to write you and tell you how grateful I am that you included me in the circle. It will be just 9 yrs next Dec 6th that I first came to N.J. The first day I came I asked you for a copy of the "Leaves" for at that time they were given and not sold. In a few days you gave me a copy and it meant so much to me. All these years you have stood for the real "Teaching" to me but I never expected this opportunity to help for I always realized that I did not

have any thing to give except devotion. Then I came to visit K & I was here only a few days when your first letter came with the promise - 5 days later the pledge. When I think what it all means my heart almost bursts with joy and gratitude. Your faith and trust in me pays me a hundredfold for all the heart aches in the past and I value that trust so much that I hope you will never worry about my keeping it. Next Wednesday I am going home as I am here long enough. I do so want instructions and teachings and I hope that it will be alright for K to send them to me whatever I may have. No one at my house ever touches my things as long as Inge or K send it no one will ever suspect any thing. Then I promise to keep any thing under lock & key so please don't worry. I so value and appreciate your accepting me that I don't know how to put it in words. I hope to grow spiritually and more useful each day. Any way I shall earnestly try very hard not to make any mistakes.

Some day in the future you will come back and then I hope to see you and talk it all over. In the mean time just know that you live in our hearts and we work with that thot. My best greetings to your Mother, Father & Brother and all good thots to you -

Amy.

Dear Friend - Happy Birthday to you and many more of them. I certainly appreciated your letter and I waited to answer it purposely so that I could write to you today. There were three words in your letter that meant much to me and they were "Greetings from Mother" - that was the first direct message I ever received and I certainly appreciated it. You see I am the baby in your Spiritual Family for I am the last one to be taken in but I am so grateful to be in that "Family" that I don't know how to express it. K sent me the first instructions - so I am studying the Book of Sacrifice and the Legend of the Stone + also p 50 - How I do enjoy it - I just thrill inside and feel so happy over it that something inside sings for joy. And also K - sent the precious "Portrait" for which I thank you + your Mother many times. All summer I felt that portrait coming to me. It would take

too long to tell you all about it but I knew that it was only a question of time until it would be here. Any way I am very grateful for it and guard it and reverance it. Maybe if I write with pencil you can read it easier.

I'll use another page

I'll try writing on separate sheets.

too long to tell you all about it but I knew that it was only a question of time until it would be here. Any way I am very grateful for it and guard it & reverence it. I purchased a metal box with key - to keep my papers in and should I go see K any time I can take it with me as it is small. I shall start my group soon - (we are only 3) using a Theo book of Questions & Answers - by Crosbie that is very good. By the time we run them that may be Fiery World will be ready. Last year we tried first "Heart" - which went to well - then the next one - Hierarchy - which we failed to finish. It was so interesting to watch that work out - it proved to me that we 3 were not of the same "Ray" - but 2 of us are. There is one lady here whom I feel that some day in the future will be fine - just now we will watch & wait. You may not realize how very much it means for me to be allowed to be with you & your Mother & Father instead of Mrs Hoick & co up. I like Nettie very much and am very grateful to her for

what she told me but I always felt something inside that did not clear up for me & it would be so hard for me to explain. But when K- told me that you were the Link with your Parents and the Teacher- well my heart sang for joy- and I just love it so now I feel satisfied. Please don't misunderstand me- I mean all this in kindness- I just wanted to tell you how I felt inside. K has said that she would send registered the portrait of the Stone" & I shall return it to her. Thank you so much for letting me see it. Please don't worry about my telling any thing- I promised you & I will always try never to do any thing to betray your trust in any way for I am so grateful for it. I hope you will be able to read this as I have written so small but I would just love to talk to you. Please give my love and devotion to your "Mother" and tell her how happy she has made me to include me in the "circle"- My heart sings for joy and gratitude. I hope that you have had a happy day today- with grateful thanks for all you do for me- and Greetings and all good thoughts to all- Amy.

Dear Friend:-

Just a few lines to wish you each and every one "A Merry Christmas and Happy New Year." Please convey my greetings to your Mother and Father and your brother.

This Christmas I have much to be thankful for and I am grateful. Most of all is the "Pledge" - what joy that brings me I cannot put in words. Each day it seems to mean more to me until I think of it most all the time. It has made life so worth while I feel as if I now have a real aim in life, something to work for, to live for and grow for each day. Just nine years ago today I made my first visit to K - little did I think then what it would lead to. Of course you remember

how I used to worry you with questions for I was so starved for knowledge. You must have felt like telling me to keep still but you were so kind and tolerant that I have never forgotten it. This was the time you gave me the copy "Leora" — now Inge is sending me a copy of the second book - and I read it each day and I find that I am still very stupid for there is much that I do not get at all clearly. The next time we meet I will be just one big question so please be prepared.

Over the radio this came - it interested me so much I pass it on but of course you already know it - but I didn't. "Two thousand years ago when Christ was born - Saturn & Jupiter & Mars were in conjunction over Bethelehem appearing as the Star which guided the three Wise Men." Manly Hall taught that the planets had to be in

12

Conjunction & the Earth is axis a certain degree when an Avatar appeared but he did not tell which planets. This came from the March of Time so you probably find it all in Time Magazine much more correctly and accurate than I say it.
I often wonder how cold it is where you are - you used to nearly freeze me in N.J. - what would you do to me there. And how hot it gets in summer. I often think of it all.

I hope sincerely that your Mother feels well now - you know you wrote that you were so dreadfully busy - but busy hearts are always the happiest - and I hope that all the rest are well. Have a happy time and know that I shall be with you all in heart, thot and spirit on Christmas day.

Greetings to all -

Amy.

Jan 3-1936 - 13

Dear Friend:

Last Saturday I recd your Xmas letter and I am always so happy to hear from you for I am with you in that so often that I almost live in two worlds - part of me there with all of you - and part of me here in a busy household. I could never make you understand just what it means to me for your Mother & Father to accept me. It makes me feel so humble but oh so grateful.

Just now I have a good many problems in my own household - and your letter just seemed to touch these even if you did not know of them. I fully realize that I have a karmic debt to pay right here. But do you know that there are times

when inside I feel like a boiling tea kettle - something inside of me just fights - to express to the extent that I feel as if I would explode. Now this is not irritation - for it is not when I am angry at all - it is just like an overdose of energy. I can feel the place inside of me just ready to explode if I didn't get busy & do something which I usually do to work it off. Of course you must always realize that I haven't any Inge or K to talk to personally. All my secrets stay locked inside & the closet within is quite crowded. How many times I talk it out with you in my mind, you little realize. K sent me the lovely silk piece

with the sign of Lord "upon. Of course this is very sacred to me and I keep it with the "Portrait" in a locked metal container which I purchased especially for these treasures. Mentally I call it my "Treasure Chest" and it is the greatest source of happiness to me. Many thanks to your Mother for this. More and more do I realize that all spiritual growth comes from within & it is individual work - no one can do it for you altho those higher up are like guide posts showing the way - but it is up to me to follow the right sign. So you can understand how much I appreciate your showing me the "Path" & it is up to me to follow. This coming year I hope to grow more rapidly for it seems to me that I am terribly stupid and slow, and I do get disgusted with myself. But I always rebound with

new hope of learning more and doing better. It is such an inspiration to me for during the past 10 yrs it seems to me she has just developed like a lovely rose. She is so kind and unselfish and is fast learning control of herself. I think you would see a great change in her for the better. There are days - today is one - when your Mother is present in my mind - I don't need to think of her at all - it is just as if her presence was inside of me - or rather I am conscious of her even if I am busy doing other work. I can't just explain it to you - I feel it more than that - it is inside of me not outside. May be you can explain it - I don't know if I make you understand me for I am so poor at expressing my feelings. But give her my love & devotion - perhaps this feeling is the love She sends me - any way I feel it deep inside. My best thots & devotion to each one - Always - Amy.

Dear Friend: February 24-1936. 17

Please give the enclosed letter to your Mother, it will explain itself. I am so grieved at the conditions in N.J. my heart aches for your Father for it is all so unjust and cruel. For several years I have not trusted N - but I did not dare say any thing for she had K under her control & any thing I would say would only irritate K. so I kept still but there were times when I boiled inside. I do not understand E.J.L. at all. She had the most golden opportunity of any of us & has discarded it in a dreadfull way. I never did think much of L - he was too conceited & that never gets you any place. Well any way the only way I could join the fight was mentally so I am in it daily & as there is something of a fighter in my nature I appreciate the fact that I am allowed to help in the only way I can help. So just know that each day I spend part of it sending all the helpful thots I know of to your "belved family" and the Work" - Sometimes I feel that it wont be so very long until I see you again and wont that be grand - I looks forward to it but until then always know that I am with you all daily in helpful thots - love & devotion to the "Teachers" - Amy.

September 26-36.

Dear Friend:-

October provides three birthdays, one for your Father, one for you and one for me. My greetings to both of you and all good thots for the future.

Cincy was terribly hot this summer and I suffered from it very much. Real hot weather makes me so weak that I can't do any thing. I spent almost 4 weeks with K. and it was delightful there. Ilora was so sweet to me, I like her very much. K was worried all the time for the Trio were making so much trouble. But Mr Stern is grand, he has a heart of gold and a fine mind with it. K wanted me to write you my impressions of the different ones, but I would rather not do it for you might misunderstand me. You see I cannot always give a reason for my feelings but just have to wait and see results.

One thing I begged K + Inge to be careful of every word they said - even in the group. You know what I feel. Some one is not 100% true and dependable. I worried a great deal about this at first but all I can do is to "think" protective thots for K + Inge. Please keep all of this to yourself as I know you will. Remember how you used to always tell me, "Every thing is going to be alright." - now I feel that it will be soon. Then your Father will finally come and settle every thing. I hope to get to see him

I have a new treasure that I wish I could show you. A friend gave me a lovely little picture of the Christ. This friend is old and sickly and she wanted me to have it before she passed on. The actual picture is the size contained in between the 4 X on this paper. It is one piece of Tortoise shell and is pressed out so that the picture looks like smooth carving - or rather it stands out. How I would love to show it to you - I just love it for its' peaceful beauty. It is a picture of Jesus holding this ✝ in his left hand, and holding his right hand with 2 fingers up + 3 down. It is a beautiful piece of work - so delicately + at the same time distinctly done for even the tiny finger nails show. It is supposed to be 300 yrs old - but I don't know. This friend was very rich and they bought it from Europe many years ago. She thot Italy but she (X) wasn't sure. Won't you tell (X) me some thing about this kind of work, I feel sure your father knows all about it. I was asked to take it over to the Cin Art Museum - as they wanted to see it for they have'nt any there. Another friend brought me a hand painted tile with a famous church on - from Mexico this summer - this is not old - but is lovely - it has a hand carved frame on it. So you see I am attracting lovely treasures which I enjoy keeping around me. I have a lovely corner in my bed room with a writing table and

as I write now, I can look up at a picture of your "Father", also the print of his "Christ" picture also "Krishna" and also a Tibetan charm you gave me one time as a gift. It is a lovely place to study in and now I shall add my tortoise shell picture of Christ as soon as I get a new frame for it for the old one is falling to pieces. The old frame is cut out of a solid piece of wood but it is now rotten + falling apart. It is just a little plain piece but I'll keep it some way. I don't know how yet. I wish you were here to help me decide for I want to preserve it carefully as I value it very much for its beauty.

I hope you are well and doing good work. I think of you every day and they are good thots too. I am so grateful to you for the "link" that my heart is just filled with love and gratitude for all the "Spiritual family" and the work.

When you do write please be sure + tell me about my picture - I would like to know something of this kind of work.

Please convey my "best wishes" and greetings to your Father on his birthday - it will be past when this letter arrives but I'll be thinking of him and you also - Happy Birthday. With love and devotion I fall

Amy.

Dear Friend. -

Upton 21

Here I am at the same place and surely enjoying it all. I am writing you from 409 - I just love it all and do so enjoy my time up here. We are going to Moriah to visit Mrs Hosch + I am so glad for I am just starved for some "teaching" you cannot immagine how hungry I get for it all for in Cincy I am so alone - just with my books.

One thing I want to tell you is that I so often dream of you and your parents. In my dreams I often talk to each or all of you and I have seen your Mother so plainly in my dreams and in one she smiled to me so wonderfully that the radiance + warmth of that smile staid with me for almost all that day. It was a marvelous experience and I don't believe I shall ever forget it - at least I hope not.

Your last night I dreamed of your father - he was coming over to America and he crossed over a little bridge + I put out my hand to help him cross + was so glad to see him + then we had a nice talk.

Really I can't tell you how much these dreams inspire me & fill me with joy - and I do not speak of them because they are almost sacred to me.

Of course I shall be very glad to see you when you come and I hope to make a trip to NJ - especially to see your father for I always feel as if he is the one person who will explain to me some of my experiences.

You would be proud of K & Inge if you could see them work here, they are both just splendid and they just love their work and get along so well and are interested & happy in it all.

Did K ever tell you that my son has a baby daughter 10 months old? She is lovely and I hope will grow up well.

I send you all many good thots and am so thankful that I know you for I owe you so much for the "teaching". Please convey my love to your Mother. I have felt her smile so I can truly send love in return. My best greetings to your Father, I do hope to see him soon - and with love & best wishes to you - Amy.
