Dear Sir;-

Owing to the many demands upon the time and the endurance of Mr. Hall he has asked that I write you for him and say that he is most agreeable to your having the Occult Anatomy of Man translated into Russian. Also we are sending you a copy of Man the Grand Symbol of the Universe which is a much more exhaustive treatise on the same subject. This also you may use as you see fit.

With All good wishes we beg to remain,

Sincerely yours,

M.S. Young for
