#### A VITAL MESSAGE OF MANTRINASURA.

It is written: of all creative energies, thought remains supreme.... Freedom of will lies in all and the planet itself is in the power of the human spirit. are

Conditions such as they are on earth today largely because of the action of a very small minority of the people who are able to think clearly and who know exactly what they want - and consequently bring it into manifestation.

The majority ~~are~~ either are unable to think clearly, do not realize the power of thought, do not know what they really want or concentrate on the negative aspect, viz: things they do not want.

Few indeed know clearly what is best for all and affirm it.

#### AFFIRMATION

May the Great Purpose be fulfilled in all lives and worlds!

I AM a part of the Manifestation of the Infinite Being, a willing instrument of the Universal Lord, IN HIS NAME I affirm that greater Unity, Beauty, Truth, Goodness and Love, greater Knowledge, Wisdom and Power for their sakes and greater Bliss as the Reward be Realized in all beings on this planet and throughout all Time and Space and Motion. To this end let all things prosper!

Those ~~whom~~ whose will is set on the General Good - which of course includes their own highest interests on every plane - are invited to make the best use of this vital formul<sub>a</sub>.
