An Experiment

by

Dr. Anita M. Mühl

San Diego,
Calif.

1937

Object: To investigate nature of
"inner illumination".

Method: Camera Dark Room.

— Experimenter — Stool

— Developer —
— Wash — Running
— Fixative — Water
— Wash — Wash

Velox printing paper - sealed
pack.

Procedure:

Dark Room.

Meditation on development of
light (3rd ventricle).

Break seal of pack, extract
2 pieces of paper.

Place one piece of paper on
stool, sensitized face up.

Hold 2nd piece one inch in
front of eyes - sensitized

surface toward eyes.

Project light ("inner illumination")

10 seconds.

Place paper in developer - then in wash, then in fixative, then in wash and finally in running bath for half hour.

Develop paper on stool at same time.

This paper acts as a scientific control to show that the image does not exist (?) in the room, as such.
