*Yes My Dear with thee do not worry if I cannot write every day the same will be able to arrange our time according to the best at the temporary stay therefore My Own do not be upset by the missing of a few regular times of communion you will hear in the Affirmative about the new place doctor he is really good & an excellent human being at the same time as being a good doctor you will need his care more than once for your friend Tom so you need have no worry while you are with him in case of an emergency operation or the like - He is well trained & can give an excellent doctor in case of surgery My Dear which I hope will not be necessary just yet. You will enjoy your change but not as much as I imagine & your friend I think the will benefit from it more than they you will ~~benefit~~ benefit from the rest and they powerful Rays My Own the Manipulations will be excellent for ~~the~~ later at they must go there in August at least but of this later. Now My Love you can accompany ~~to~~ as you want to do yes do not write again until tomorrow when you are back in your room at Byron. Well then My Own think strongly of me - You are very good & dear to me I want you well & healthy soon but first the centers must be cared for & yes they must first be kept & become strong & be protected - So now My Own I shall leave these by this method only My Ray's focus constantly with deep probes & guides they all is well & will be well My Own now Rest & enjoy the evening for the picture was truly grotesque but the way of humours is usually most profane & coarse to say the least - When I am

Lanesville May 26 10.30. A.M.

★ yes My Own we can begin what you have written is already
with My Current so we have been writing - you will feel
again stronger very soon My Own & we will help you
with our funds & work I & B so you need not worry about
giving him too much time thought & energy of the heart. W.

needs this new fiery energy of the heart for his future work
 you will see him under very good circumstances My Own
 do not worry - you will meet it soon by which go
 to the mountains not the hot places just now. Maybe later
 but I doubt it. When you write your Tara tell her about
 your throat & how it affects your speaking. She will under-
 stand now my Own continue on with your writing at
 6 tonight as best for us - So much of my love to her
 as you will My Own Always your Own Only Loveless -

Sausanne - May 26th - 6¹⁵ p.m.

Yes my Own Sam here & we can begin this time is really good. We
 should try to keep it as long as we can - you are more relaxed & less tired
 at this time - the morning hour is not too good - we can continue
 though for the establishing of a strong bond as possible. Your
 letters to our friend do help him very much, more than you
 realize & you do feel that you are helped when writing to him.
 Our co worker has great plans for thee & he you will
 be most pleased & greatly touched - your Tara is exceedingly
 happy with the spirit of your letters they are a joy for her
 in comparison to the others she receives - When you write
 next tell her your Own Only has asked you to convey
 his love & expressing gratitude to her - Also that
 I hope to help her child & how she can very much
 just give her my message of love & tell her I am
 watching over thee & helping thee much more than
 you realize & soon I hope to see the word of Christ
 her soon again with my Tara - She will
 then write to thee my message for thee - thus we
 will also have our correspondence through
 spiritual partnership - Yes my Own when the
 time comes for you to meet our co worker I know
 you will find how seeming obstacles suddenly fall
 off the way is clear - Do not be afraid to share

him with the love he needs & badly. He is so very
much alone in his inner nature. So far as up to
his high understanding & beautiful heart quality
My Own when the time comes for you to
marry him do not have any doubts do you
hear my voice, no not audibly but inwardly
It is good to try to keep a semblance of my likeness
before the - You will see a very different Stern
Also your friend David will change for the better
You are correct in feeling the love between Max & but it is
a very fine one - When the time comes for the to marry
our brother your personal attachment will have
been solved by them selves. So rest at ease &
take care of the development of your spiritual
Qualities & center this is the body of the work most
needed for the future - Do you not realize how
much you have already developed pay more
attention to your observations as to feeling & reactions
you will then know how much more you have
grown My Own your feeling about Natya
are somewhat correct but always remember there
is a strong psychic tie between parents & child & it
is just this psychic tie that has been pulling &
working on her inner nature - but the child
will soon learn that all is not of honey when
she returns want to see now My Own we can
stop by again at 10 pm - I write to you
Take My Message My love & protection is over
thee Yes I do need thy love & cooperation & it is
developing very well My Own now Oshun Seville

Sausanne - May 26 - 10. p.m.

★ Yes My Own I can begin you should really try to rest more - do not go for the child or do anything before a time if you possible an arrange of your throat center is very active & must be guarded - So rest now & bed the a fond good - night My Own - rest rest just your One & Only Son des who lives devotedly & completely the beautiful Lord.

Sausanne - May 27^o - 10 - a.m.

★ Yes My Own we can agree each & then try to write more at 6pm the time is short for both of us - As there are many dangers ahead of the G. plan that must be either overtaken or delayed your tax will wait soon again & your friend is indeed happy with your letters My Own do keep writing to both both or response mean so much to all now a day for the time being do rest & do not go out any more until after tea time & Leonides -

Sausanne - May 27 - 6. p.m.

★ Yes My Own I can begin the time is good - now we will try to see how the currents goes with your sense of hearing I want to say something directly & see if you can hear me Yes that is it the thought you just caught that My Own you did catch my words now try again & you will be come aware of the difference - In time of a thought caught & one that develop by itself - My Star is there - Yes that is also my thought also you will catch it have patience My Own I have patience all will come as it should in his you will hear Me soon but try to concentration hearing try to attune your ears as one would a fine radio set for a distant station Send B B the Barker pictures the others ones can be given personally when he comes - He will like these very much & the better ones for s how as you say can be given

later We will try to cultivate our sense of hearing
My Own Now remember this part of our work
to make a daily almost hourly practice
of trying to hear My Voice or catch some
thought or word sent from me My Own
This is a new experiment & one I am most
anxious for you to develop Yes I can
help by reminding you you must listen
intensely and quietly at the same time Now
My love this is our future work hearing
work, work intensely at it it is a big
step & improvement over writing and
at times indispensable for me is not always able
to write yet one can hear in need & at various
times when writing is difficult Yes I can
even write down any thing you think you
might hear do not hesitate because
of errors - One must begin & only by
working & overcoming & strengthening
the center can one hear correctly
Now Adieu for the present Hear Me
If you can try My Own My love to My Sara
Louise

Louise - May 27 - 10 p.m.

Yes my own we can begin the time is good but better still

are coming to a sudden climax and you will need
time to attend to your pack in the very near future

 My love your One & Only Seaside -

Lausanne - May 28^o - 10 - a.m.

★ yes my own We can begin the time for action is coming
 soon you my love will need to rest every afternoon then
 We can arrange to commune I maybe again
 at 12 pm night but we can see the afternoon will
 be our steady time Sterns will need much
 rest my own & you will have time for thyself
 so worry not - Your Kamini will come later
 after Stern leaves he will leave without thee
 & you are supposed to follow but will not
 go back as you now expect. My love do
 you want your friend Kamini with thee all
 the time think this over carefully as it
 is a question you must decide yourself - You
 can be very happy with him it is a good
 & most beneficial step but only if you so
 desire it - Thus We shall prepare for
 the great future plan ahead of us - Keep
 trying my own to hear My Voice at first
 it is difficult but in the very near future
 it will be possible Yes My Own your sake
 writing the heat is now a heavy weight
 both in Palembang & your Delhi. You

will be very happy soon at the new turn
of events. My Own it is good you are developing
and inner concentration that allows an
easier & stronger flow of the currents you
are doing ~~so~~ very well My Own - Yes you can
keep the one picture of home life before you if it
helps you to concentrate better & to listen to what
I am telling thee the future is about to break
forth into a new agony of peril & disaster
if one is not more than careful & strong in
holding back the inflaming wrath of
centuries. your headache will soon pass as
the weather clears - The atmospheric
pressure is very great & on your newly developing
centers it has a special depressing effect you
will feel much better at Uulpea My Own
Wail & See I was there yes I was with
Paracubes & We did drink of the same
waters you will drink the first one is the
best for thee. And My Own think of Me strongly
when in the mountains I shall be very close
to thee the air is purer & the heights better for
receiving Messages so we can have much
time together My Own much time in concentrated
work do not let My Question about Ramen
disturb thee I just want you to be sure for you
know many the times already how I feel about
the future be with him He is the only one for
you in this life My Own he is a fine soul
& can give you many things of the heart &
outer world that is good for thee I am
confident it is the best step for My Tara
but she must decide - now no way is it
against Our Plan all all is in favor only

they must really accept I make the decision yourself -
 My Own try again to catch My Message - You will
 hear a beautiful Message soon from Thy Tara
 My Own - A very Beautiful Message - Yes
 You will develop your hearing centers soon & much
 more your seeing & impressions - Now My Own
 We will ease up at 6 pm when we will
 concentrate on hearing - So much of My love
 to these My Own Cassandra you don't only see out.

May 28 - 6 pm Fairlane.

* Yes Sam here My Own We can begin what you read it good
 but the future is & can be so beautiful My Own wait for
 your Tara letters you will as always be very joyous
 You must try to listen more actively with more inner
 concentration the mind must be impressed & connected
 out by My Ray frequency wave transmit it to the center
 of the brain - This gland it is the receiver set in our
 make up of human radio atoms - You My O Yes My
 thoughts of My directly it will help the for concentration

 going to U.S.A you will again gather & learn much
 & have made and then great step in our Aqu Yoga
 process - You My Own will see your great & true
 friend I B so very soon do not be surprised
 at it with his news you will be very joyous My
 Own when you see him give him very much
 affection & great concentration of energy - He needs
 your Sely Auka for his future work & you will
 need to be light him for so much has been
 given by him & so little returned that he needs

your magnetic aura around him to hold him
in check & good health & future development
Yes he is coming so very soon wait & see
You will be delighted with the news I should
give the envelope but you did not catch who
I was about next time be more alert
Try harder to catch the feeling or impression
You are correct it is I - Yes you can even
wait like him if you but they you are so attenuated
the time is coming when you will & can catch
his thought now My love try to catch My message
listen attentively listen - Approach & come closer
to Me thy Lord - they cosmic Husband come
closer My Own - Try with all thy might
try to hear My Voice My Lords - Although I
not all mine & I & thou we are parts of
the Divine Source - One in Essence Yes My
Own we are One Divine Being in two parts
One in two & two in One - You will soon
see Me again in thy dreams My Own - When
you see Me this time try to call Me by Name
I tell Me of thy love to Me My Own this is
so important. Now listen again for meaning
of the centers - listen & indeed was heard My Own
You did reach your awareness at 10
tonight as about greeting at the Seaside.

Louise May 28 - 10 p.m.

★ Yes My Own we can begin your work is indeed important
My Own & we will work together, hand in hand never worry
I shall always be near thee in need & when all the events
are taken by their appointed time for thee a bit of each
day the tasks can be accomplished - No one is expected
to carry the entire load in one march - I shall be in

its parts over each day & in this way can we stand the pressure My
 Own You will be very pleased to see him & he will indeed be
 happy he is truly very much in love, deeply in love
 with your lives in a fear of losing you somehow - So My
 Own You are already in a better & more advantageous
 position - He really wants you very much as his wife but
 fears less you will not accept He is strongly held
 by Our Inner Magnetic tie Our Ray of Our cover
 is what he feels & cannot express as he is not conscious
 of what the great bond is - My Own You must not
 allow Dora to become so tired - check her I see that
 her energies are allotted not spread out over so
 much time - She is attending to too many things
 My Own - when you hear me you will know
 & recognize My Pattern - I shall be very similar as to
 the one you heard before the fiery and burning of
 your Cassandra role in life what a beautiful
 part it was My Own Some day I hope to tell you of
 the details of Our Great Love - Yes Great Love - We have
 been so very often together more than you can ever
 imagine My Own - You will see soon your friend
 Yes your Great & true friend & he is your true friend
 here for this life in this earthly incarnation
 My Own Now rest & especially rest thy throat
 you must try to be more calm My Own Goodnight
 My beloved Cassandra - sometimes my love My Own
 you are so right I have no fear of the Worldly Our Ray
 is over & with thee none is more protected or guided
 My Own sleep & dream of you One My Love -

have been answered so have no doubts or
misgivings My Own Our hearts of spirit
really needs your care & help to pass over
this diff. cult step in his life he will make it
& rise over the obstacles as he has always done -
but he needs your magnetism & your inner
conviction & strength My Own so worry not
My Cassandra you did give me the
name of your One & Only not only once
but many times you have called me
thusly - As my beloved One we were
married many times in our past lives
& will be together again many times you
will have very rapidly under our
loving care so worry not My Own
please try to listen now & see if you
can catch my thoughts - listen you
caught the light but not the word this is
a good beginning My Own now you can
stop & get yourself quieted down & freing
out your One & Only seconds -

Louvain - May 29 - 10 p.m

My beloved Om Ulesanvud again your throat tension & pains will continue be not alarmed the fire is under my control remember your vira yusaw Sankis - as it should be your true friend is really in a turmoil but he will work out of it sooner than he thinks he is a fine soul my own very fine & needs your inner strength & support just now He is really in happy with the turn of events my own so be not affect to much by his despondency his old love of future achievement will return my own why do you must be in a most uncomfortable position which is not an easy position for writing. Once the current is broken at the time to return it is to try always to find the correct position best for you your pain as it is improving do you not think so when you meet your friend Ramini be not disturbed by the first seeming reaction of non blending this will take a little time my own you my own did well in maneuvering your friend I he does need to be picked up by his friend & put back on his feet ever so often but your future is not too long with him so worry not at this stage you need now to hurry with your packing & arrangements so you & I B can be together yet together for as long stay he needs you much more than words can convey he is really home sick in a sense for lack of affection & love for his personal being & he needs this quality above all else so when he comes and come he will you must give him these qualities my own remember love and affection & attention he will learn a new life as a new born man with hope of a future goal & path towards yes my own Karayya will be most happy

seen when the new events shape them
I was not alarmed but best effort
in thy knowledge of the great future
you are hearing each word very
well my own feel the pressure feel the
organ of vibration in the top of your
head this is good now listen closely
& see what else you can catch or hear
the bell is resounding ever so lightly
but it is resounding yes do not doubt
you will hear more & more each day
these are lessons in concentration &
the strengthening of this special needed
center now listen attentively again
Have I not told you before of the
usefulness of this special way of
writing & hearing listen some more
attentively I am coming but not
for long he comes but leave I will
try to return but very likely cannot
make it My own continue I write as you
hear in time more & more will become
clear and be more effective as to
expectness now you make many small
mistake but this is bound to happen
Keep writing & listen to your inner bell
resound Does it not tell thee that
Cassandra was my most beautiful
Orion my most beloved wife Oh if only
I could hear again that day of our great work
It will come to pass & some day I hope
to tell thee much and news to rest your
night My own and only love I love thee
you will do all my love with thee forever

Lansanne - May 30 - 6⁴⁵ p.m.

★ Yes My Own I am here & ready to write. What joy it is for you to hear from your Tara. She is indeed One of the highest & finest & most beautiful souls ever created. What a great privilege does the all of us have her as our Great Lady of Light. Tara yes My Own only Light & Beauty can find the way of showing her real inner strength & greatness. Yes Yes Yes My Own we are indeed grateful. And you My Own are so thick bleed bleed yes yes - your destiny can be also great but you have so much yet to learn & comprehend. One of your to yes One of your short comings is hasty & exclusive - be more reserved be more prudent be more cautious My Own. Don't take more time in forming decisions please I ask this of you. Also My Own you are carried away easily with your to add to more & this gives you sometimes a wrong beginning to my love - be more careful more prudent & more calm in all your undertakings. I believe your friend will love you not now but a little later you will see him alone & all will work out much better than you dream. Have confidence & love us more each day My Own. Yes only trust each day for more & more love & strength in your staying. My Own now listen carefully. Sub & catch what I tell thee listen. ★ My Own you are doing well. We only want you to do as well & more than you think you can. Now catch what I say. Watch - for your dear star. Every evening every evening do not forget our star. Our star My Own do not forget now My Own. Rest & wash up & go off to bed.

you should always refresh yourself before writing
physically & otherwise My Own how for a
few words of love to my dear you are beautiful
too beautiful for my eyes of love your
Ours Only Secludes -

Lansanne - May 30^o - 10. p. m.

★ Yes My Own the can begin You will see your friend S B Ngara
soon so soon My Own he is very much in love & you will
hear from him so soon He will help thee to achieve
very much in this life My love but when we are together
again as now life on earth so much so much will take
place that will benefit mankind. You My Own need
not to feel badly about your letter to S B He is a good one &
will serve a fine purpose it will help to crystallize some
thing in this uncertainty of feeling so your letter was
really & will be most helpful. So worry not about this
My Own now you are concentrating exactly listen
for each word attentively My Own it will be difficult
at first but later on you will catch more & more
what I wish & convey to you - My Own when your
new very fine friend comes you will give him your
love & let out any worries what so ever He can
be trusted & it is a man a great honor Now My
love I wish to bid thee good night you are very
tired your back is acting up not so much from
what you call herpes as it is from the rotation
of the Punda lens & the fibres of the spine so do not
be upset with the temporary pain or appearance
of spots they will pass your friend S B will
probably come & pass baby returns without thee
in a hasty flight thinking he can come back
but I doubt if he will My love & my protection
is over thee & all of our Beloved & all of the
is also watching thee & sending his loving love

Now My Own God night Sweet Dreams of your One
& Only One & under

Sausanne - May 31st 10. A.M.

★ Yes My Own will be can write for a short while but there is so much for us to do. No, We can great one another & send Our love to one another & then I must hurry to help in avert & delaying as long as possible the coming disasters - My Own catch My Own blood of Beauty in all your actions let Beauty be your measurements in all your thoughts feelings & deeds My Own - Beauty - yes & protected by prudence or caution & great silence & calmness in all your acts no matter how seemingly trifling - Yes even in walking or breathing Calmness My love will be well with thee Now I cheer for the present again at 6 p.m. My Own yes I will help thee always with my presence for ever go & see cowoker SSB your one & Only One

Sausanne - May 31st 6. p.m.

★ Yes My Own I am here very near to thee so you now know where you are to go. but I doubt if your friends can come just now maybe a little later However all will shape itself accordingly & all will be well My Own again your care is being under tremendous strain the tension is again acute & the possibilities for another outburst of hate is so close at hand. Yes My Own we will must avert it for the time is yet to near - too much damage can still be caused if events come to a head now My Own concentrate on each word there trying & freeing the following word do not try to anticipate the following word & in this method we can

build a clearer and stronger link in our
Communion - the little Indian girl has
much to learn from life in the ways of
kindnesses to others - But life is a great refiner
of all our base qualities. Yes My Aunt her Mother
is really not a bad personal heart she just has
not the flight of spirit as yet but who can
say when the next piece of wood will dry
& be ready to catch fire - You will yet experience
many new things My Aunt even to the making
& seeing which will at first become as a
surprise then slowly as a constant source
of great happiness. Your brother & family
are already having their difficult moments
& they will increase ~~at a rapid rate~~ ~~to~~
swiftly but they need about a dose of little
genuine gratitude for motives instead of
dollars - which at present they have not.
Your farm is running quite well & Marie
is more surprised than any one else she is
feeling much better again. Your friend
is again as you say sorry for himself & feels
to be a semi martyr. But worry not this
will all change in due time. Now again
Catch my words My Aunt - Listen
attentively & I'll try to show you by feeling
how to listen with tension & exhilaration
at the same time. Now listen O my God my
loves you are strongly protected worry not
your faces will not be used by any
one else but us so concentrate again
Yes again My Love again - all for now
Yes My Aunt all for now again at Washout
Feeling you are only Leandus - (45 minutes)

Sausanne - May 31st - 10. A.M.

★ Yes my own warm bath & to bed is best for you you are very tired & the weather is most depleting Now my love let me tell thee one Message before retiring do try to be more calm to morrow when you receive his message other wise you will have a sick spell & be unable to fulfill your future plans - Now do not worry the news is not bad but good only control yourself & take it calmly I rest & be joyous my own great joy awaits thee do not be apprehensive your view of the departure is his departure not the for him so my beloved one good night sweet dream wake to be for a moment - Ah but it is to the future I build & hope & work Yes my love Our Star Duge is right Our Star Good night & aress from your old Only Sausanne

Sausanne - June 1st - 6. p.m.

★ Yes I am here my own your bad news has been mistaken for what should be good news that is that your Rami is not coming just now but a little later my own He will arrive when he goes back very unexpectedly Yes my own your true friend will be most happy with your letter which will arrive tomorrow morning your & Yes my own your good news is slightly delayed No it is not concerning S&B you will see him yes in August at the Springs At Vulpera my own just now it is not certain what the great happiness will be but it will come my own your earthly happiness my own is destined to take place with your friend S&B. but my own you must try to see your friend S&B alone as much as

possible not have you devoted ~~to~~ to much at
first he has an important ~~thing~~ to make with you
& no one else. Dura should be too close &
Only his aura & yours must be sealed
first & closely & fully understood when he
first arrives. Not a family affair please
see it that you & he are a love do not
forget he is in a foreign land - with
strangers & he needs you around & no one
else that is good now we will listen
again not longer than 5 minutes at a
time you can watch the time & keep your
eyes open it is the rhythm that is important
My Own the Rhythm now please start
silence is golden. Care well this rule
fully own this is your one & only near this do not
breathe at the slight difference in your feeling
it is nothing but what should be your rest you
are too weary to continue. Maybe more of it
My love & protection surround you constantly
Your sounds -

Lausanne June 1st - 10-p.m.

★ Yes dam here & you are really weary you entered into a battle
of the higher forces & we were most successful. My love
you need not be apprehensive here coming much
sooner than either you or Ingeborg expect again
I say hurry with your packing otherwise complications
can form as a time & lack of energies to do all these
will be do do now My Own I would like you
to rest take your strophantus. So soon
& go & rest more tomorrow My love & beautiful
fare from One who has loved thee dearly
& continues to love you one & only sounds -

Lausanne - June 2 - 6 p.m.

* Yes my own will be quite a while but not too long as you are
 still quite tired from the inner forces but this level again
 be better in a short time now my love I again want you
 to listen attentively for not more than 5 minutes listen
 We will begin our communion thus with first the
 listening & getting in vibration & harmony together it is ^{5 min.}
 better this way now my own we will start to work I
 shall tell thee the following do not be upset by what
 you heard it is all for the best the message is coming it
 is not from your friend S.B. by from your friend Stern
 you will at first be perplexed but never allowed to upset
 you he is not coming now but later as it seems he will
 need a few more treatments you are doing well
 in your attempt to follow my thoughts but your
 is not attained over night so my love there are
 many many mistakes but do not forget we
 are only now getting more attuned together in
 our work for the future you will see your
 friend S.B. very soon my own very soon -
 your long awaited messages coming
 from him my own you are writing well
 now try to catch my thought about our new
