

Happy for Timbony that since the Chapel is build he is receiving such help from many sources. The Chapel is very beautiful -

With the change that has taken place in the Home since Poroma has come back (only 2 days ago) cannot be told in words. The whole building vibrates the building seems as if it is rejoicing. -

Myself feels something has happened and a great power has been manifested. It seems as if people here have been waiting for just this occasion. And this great feeling is not only felt by intimate friends but even by employees. Notice spot of the food with such fire, sparkling in her eyes with a beautiful smile of love on her

Countenance, that people are bowing with greatest reverence before her. How she speaks of Our Mother with what love with almost tears in her eyes. How she mentions time and time again that everything she has learned has

been taught her by Our Mother ^{and Father} the Secretary says "Oh how happy we are that you have returned at last we had again a warm friend -

Sidney says after seeing and speaking to Poroma I had gained new strength

from Professor Doctor Kesker already
some in 2 days came to see Nettie &
all people are calling up - Nettie has no
time even to unpack. Slavus is already
changed - Nettie discarding completely
Doctor Engelmann's superstitions.

Marie smiles differently. The wife of the
Manager of the Hotel has been so
deeply touched. Pupils of the School
are jumping with happiness. Mrs.
Lounsbury, Hornum, Ponia and others
are started. The power of the Lord and
Our Mother has been brought here!

Our
Father

Really Our Mother I am so thankful
to you and really I don't know how to
thank you for this -

The greatest Miracle occurred with Sina
who first acted ~~and~~ arrogantly but
today Nettie has the most respectable
talk with her, imaginable ^{and} knowing
the Concert, Stubbornness etc of Sina, this
is remarkable. Nettie read the serious
messages to her. She told her ^{how} she
was unhappy while Father was here
and then rejoiced when he left, because
this with Father away would give her
full Power.

How she (Sina) distorted Prof Roenick's
word to gain personal Power. Now
Sina must humble herself and should

should consider herself lost not always first. That she must stop saying "I know I know" this already ~~shows~~ shows her great conceit. Sina admitted to Rowena all her wrongs in the humblest way and said she lost her way and was grateful for help. P. spoke in firmest way without sparing any tithes. Sina said she fully deserved all Nettie pointed out how strangers react to Sina's arrogant manners. Mrs Nettie told her that she did not accept the messages from Naggor showing in this the greatest lack of respect. Thus Sina admitted - Mrs. Chapman also accepted everything in the humblest spirit. Really a great day! Nettie of course Daily will have to watch both -

A funny thing happened the night before Hozer of Sines. Sina tried to invite Mr. Mundy & Miss Rambow for supper - they always refused. They hate Sina. Finally they accepted and came for supper. Sina asked Mr. Mundy advice about the visa question (a thing I spoke to him in the afternoon about). Mundy said really I feel after deep thought, that Mr. March has such fine judgment and knowledge and he was head of a great Brokerage house - he is really knows better what to do, than I do and I feel

the principal thing do not mix up
 Mr Horeh with small details, but let
 him decide. He added we have no
 right to interfere. Mr Mundy kept this
 up for 30 Minutes giving Sina some
 talk. Sina was silent after this.
 Sinehig who told me about this said
 Mr Mundy gave it so forcefully that
 he had to leave the room. —

Mundy spoke in the highest terms of me.
 A good lesson to Sina not to
 interfere in anything. —
 Interesting to note, that when
 Thomas was so ill, so many people
 held special Meetings, Seances for him.
 Mr and Mrs Scott, Mr Henderson,
 Mr Wehner, Mrs de Walters, Mrs de Beon
 Miss Lounsbury, Mrs Clark etc etc
 and many more people held meetings
 of Prayer to help him get well. —

We heard from a friend that
 above the following are reasons of your
 present difficulties, that Mother is not
 European but is like native — and is
 loved by the natives. That Father is
 such a fine and lovely man and
 amiable man and they have no proofs
 and ^{have} nothing against him, but they fear
 he could perhaps become influenced
 by their enemies because he is so amiable! Also
 they fear ~~the same~~ —

The Collers continue to consume every minute of Parson's time. Since came again asking for help, Nettie told her lot of understanding of the school, not pushing an uncultured woman like Mrs. Chopman forward: What kind of a cultured representative is Mrs. S. ? Nettie had a talk with Morris who came with tears running down fully admitting everything. He said he saw everything, but he admitted he was a Co. Paid

Since admitted all her mistakes, and seemed horrified at the realization, and is grateful that she has not been sent away by the Lord and was ready to humble herself: - Spencer Kellogg seems to be coming closer Florida is getting better since Nettie is here

Shocked beyond words, that Frances ^{once} told Father "Will you received a huge sum of money for your Paintings" - This is an outrage and certainly was only made up by her small self. I can imagine how Father was hurt to hear such words - I nearly cried when I heard it and I wish to assure Father and Mother no such small ridiculous thought ever came from our mind. This is the lowest: -

How little Dear Father, Modra understands
your great sacrifice. It is appalling
Simply no understanding. —
LHM

Modra returned from her long trip from
South America. She looked fine. Apparently
in Argentina she felt she was most
successful and found the most response.
• Nettie already spoke to Modra and
pointed out Egoism Concert and about
her Mother. She cried and seemed to
be open - Nettie told her she must put
herself last in everything. Nettie will
speak to her again.

Afternoon first Brazilian Exhibition
opened with Consul General Sampaio
making the Opening Address. He spoke of
the great work of the Peabody Museum
and that ^{here in the museum} other sphere has been
• created, that even the Meteorological
Institute of Washington cannot
analyse, because it is so wonderful
so remarkable so glorious. Many people
were to the Opening and Special Brazilian
Coffee was served. Mrs. Bookman listed
Parsons if Mad Peabody recognized
her, because she heard something was
the matter with her mind. Can
assure you Parsons gave it to Mrs.
Bookman - Mrs Bookman will never
forget it. - Evening we spent at Foster's

He felt by the 18th to be able to cable good news to Father. He was doing nicely although still his temperature. Regret deeply lack of sensitiveness of not sending funds in advance for the Myra - a good lesson was learned. Just this sensitiveness is a great treasure to possess. -

● The greatest gift dearest Mother you make me, is always to point out the slightest mistake. Really I know so little. - Proverbs words about you send me into ecstasy.

It is nice to see Florence go out in the air again. -

Oct 12

Had Congressman Bloom and family for lunch. He did not understand any new ideas.

Took train for Washington and really it was first chance for Nettie to speak to me about many things she Mother had told her, it was wonderful. We also planned our conversation for the next day.

Oct 13

Mr. Cook came at 8³⁰, spoke things over with him. Nettie gave him a little gift and he was delighted. Met Mr. Castle his full name is William P. Castle Jr. Assistant Secretary of State. Nettie spoke so beautifully to him I cannot even tell you. He is a very clever

man and quickly changes conversations. —
 Nettie spoke in a soft spiritual way to
 him, that soon he bend forward so as
 not to lose a word spoke to him of
 the greatness of Mod Roerich — the great
 inspiration of the Institutions of her
 special illness. The illness which is so
 serious, but few of Western Doctors
 understand. Let Mod Roerich is such
 a great soul — beloved by everyone.
 He hoped an American Doctor could be
 found as Consultant and said if Prof
 R had any difficulty they (State Dept)
 would intervene at once. — Also
 cleared up about Prof R ~~and~~ taking
 out his first papers.

Nettie spoke also of Prof Roerich
 great work for Humanity etc etc

11 Oct 2

We gave him a Tankas and it greatly pleased him Met also another Assistant of his, who seemed also interested.

Met Mr Row head of Pan American Union and when we mentioned the importance of Culture also naturally admitting the importance of Trade he replied

● "Culture is the most important because with it only friends are made, but with Trade often many enemies" - He showed us great respect His chief Assistant Miss

Reinard fine person spoke of cooperation. Will help our institutions. Complained of Miss Grant for having sent her a requested list of names, but never indicating the desired information. ^{"Washington Post"} He had a fine talk

● with Miss Rainey ^{"Washington Post"} who writes so beautifully about Father - Visited the Colman Head of American Museum of Association of Museums also visiting the Phillips Memorial Gallery. A friendly letter came to the Cook from Westwood

Illini - anxious to see how Sina and Frances will apply the "new step" in life

Read Nat tra with greatest joy - both have a powerful call for work

the Members understand this great Cosmic Law? Words are easy to express, but let us see it fully expressed in Life. It is easy to say I understand the "New Step" but as it unfolds & Life will show. (The whole circle was present). Do you recall how sister how you asked a Secretary of Corona Studio to come up to see you regarding publicity, then you kept her waiting 1 hour and finally told her you had other important work to do. Or when you contacted publicity of a Secretary of you insulted the person with your uneducated methods. Or you delayed publicity and then altogether forgot about it? Had you known then I called her? First you have to change before cooperation is possible. Madras was silent since then, all these words but don't understand. I'll be most happy to cooperate with Madras but we shall go step by step - what hurts her is our Liberty of being able to be independent. - Sina made arrangement for Madras to do publicity for the School. Sina has no one to write publicity for her or the School staff - Nettie mentioned that our Mother wrote an article, Sina mistakably asked that she would like this article combined with another

from the School

article of Prof R - make a pamphlet
 and distribute it among students etc
 Personally believe this govt article of
 Our Mother should be the principal
 article of the "Message of 1930"
 and then could be reprinted -

Today my Brother was married at the
 Sanyk Hall. Mr Koepfer stated he does
 not like to appear at the Trustees
 meeting in the beginning. Trances returned
 and I disputed a 3^{rd} item (something
 which occurred 6 months ago with
 Mr Hall) with our new Manager also
 advised him that 2 Plants were
 dead. Mrs Selofrom keeps the Maids
 longer in her Apartment than any
 servant. It does not take such a
 smart man much time to get a
 line on some of our Members.
 Mr Koepfer said Really at this difficult
 moment when so many people are
 being discharged to eliminate graft
 and to improve conditions, when so
 many tenants wish to move out on
 account of a new Building going up
 I hoped for some Cooperation and
 Toleration from the Trustees. —

Had Mr. Bailey for lunch very nice talk with them. Mr. & Mrs. Bailey are with Mr. & Mrs. Scott and Mrs. Rambow are interested with Sivertig in the Comason society.

Many problems in the Hotel as always is when there is a change of Management.

Nettie had long talk with Madro and apparently it was a sunfull talk - she strongly esalated Gyana and bouted out lightmindedness.

Oct 18

Had first Meeting under the new way - one meeting for one institution at a time - Meeting for the School lasted 2 hours. Resolution was passed, that at next years Scholarship Hearings not only Sina can be the final judge but other Trustees as well. Personally had Gyana especially in mind to be there - (not necessary for all Trustees to be present). Also teachers of the Faculty can be present. - This years Scholarship Awards were "Strange" -

Being Brown read from "Infinity" and explained different Teaching in a most beautiful way. Sina wanted next Trustees Meeting at 12 o'clock on Sunday (change time) yes at 11 Sunday she wishes to go to hear Harko Kes Kor and at 3 to a Concert - We changed this also. The Trustees Meeting without Mr. Chapin was 100% improved

Mrs. Schapiro always depressed these important gatherings and with her suspicious mind one cannot create -

Oct 19

Doctor Kettner speaking to Reynolds Leader of ^{Chair of the} University Women's Club found ~~that Reynolds~~ similarity of expression of Spinoza in one of Bach's compositions. So a Bach-Spinoza evening will be given. Hebo is also a great admirer of Spinoza; Hebo will bring de Casseres supposed to be one of the greatest authorities on Spinoza to us. -

Nettie is already deeply immersed in the Sorcher's work. - It is a great work. - Many changes in the Hotel - it is really being recreated.

Miss Kettner is doing fine work in the Finnish Association - a fine concert is planned by this Association in January. French Association a big meeting of all Consuls November 25th. The works are growing despite the unlearned attitude of England. Flavinus had color in his cheeks for the first time in weeks.

The Teachings are so great - they are our stronghold. Mrs. Schapiro has told people in the Building that she is a Trustee and receive a Salary!

1221

Bitter attacks in papers by Paul Warburg and Lord Melchett against 'Bribe-taking for Breaking faiths against the Jews in Palestine' — Our President thanked, but could not accept Insignia 1st Class.

Joy to receive Prof P's letter from the boat which has the initials M.M. upon its flag! Signs all over

Thinking seriously how to raise additional funds! This is so necessary. Expenses in Hotel will be slightly higher, because we must give excellent service to establish an outstanding reputation. Many servants are commenting on the improved conditions in our Hotel.

At present time it is officially admitted that 3 1/2 Million of people are out of work. No doubt there are more than that out of work. —

~~Hector~~ Hector Bekar expects to go to Morish this Summer. Mrs Lojacomo is still here — how she exists is a mystery. Madras beginning ^a circulating library. Nettie's effort on the Institution is remembered all.

Church and Drama League will only take 3 months and then make further arrangements. Will begin to rent out to individuals again. Not one soul came along who wanted the theatre. So nothing is lost anyway.

Doctor Kestor goes according to the

with Europe. He felt you would
receive a good letter from London
when you arrive at Pondicherry!!
He is always optimistic! As per your
request we asked him if the last
foreign office letter ~~for~~ received by
Prof R at Paris was on account of
his inquiry and Kestor replied he
did. Well think 50!

Bistram told James Kellogg that
Kestor saved us financially also that
he secured visas for Prof R. Imagine
such nonsense! Imagine poor Kellogg's
face when advised that so far no
visas ~~for~~ had been received.

Saving us financially well really
that is humorous. Kellogg felt Bistram
was not too friendly. Bistram also
said to Kellogg how we cluck our heels
when Prof P is here - Good to
know our people - Kellogg really has
been acting nicely. The good \$150.

Donation for Lectures to be given by
his friend Elliot Clark an artist with
the understanding for us never to mention
to Clark who provided the funds. -
Kestor's groups are growing constantly

Fine lecture by Sikorsky on "Conquering the Air"

 placed in the Atlantic Ocean on which
 Aeroplanes could land as he believed
 a 3000 Mile Aeroplane trip would never be

 on this new Invention. Our Hall was
 crowded. Keskar advised he heard, that
 Prince of Wales (who is a spiritual man)
 as well as a Minister made recommendations
 at the Foreign Office. Also Prince of Wales would visit
 New York ^{here in New York}.

 Flavour really better today. How I love the
 third Book! What strong
 formulas! Had fine financial Meeting to
 find means to raise funds. Each one of
 the Trustees fully understood the
 necessity of it. Sidney very useful
 at these meetings. Biston Watercolor
 praised at the Annual Water Color exhibition.
 Nice Meeting of Mansuetoff was held
 about 125 people present. Mr Sapiro
 an American was present, one of the greatest
 Cooperative Lawyers. He organized all the
 leading Cooperative Organizations in
 America. ^{a pupil of Keskar}
 Nov 4th Ann Clark wrote a letter to Prince of
 Wales (she mentioned she had an indication
 to do so). Keskar gave me to understand, that
 the Prince of Wales himself made personal
 recommendations. This is quite different!!!

Beautiful letter from Sister Ujana, what a pure soul she is! The Roy of Our Lord helped ~~the~~ Flavius so much. The Asthma was so much milder. Nettie gave the boy very little medicine in comparison to Kegelmas, who poured Medicine down his throat. Kester held special Meditation daily at 12 o'clock with a group of his pupils of which 2 Minutes devoted to Mad Patrick and 2 Minutes to Flavius.

Oct 28

Ujana's letter was sent to Castle.

My Cook sent a letter to the Secretary of Lloyd George. Many people asking for Paddy's name in Pents. Flavius letter

What a blessing not to have Mrs. Schafroth at meetings. She told some tenants that she is ^{almost} the head of the Institutions. Sina is still quite cocky and one does not feel humility or any modesty. At least Modra is so much more intelligent. The first meeting of the Society of Friends took place and for the first time Rambova Mundy Stokes attended the meeting. Fleischer was also present. Nettie won the respect and admiration of all by her splendid chairmanship. All complimented her. Mundy asked many questions and he wished to know in rather

inquisitive way the purpose of the Organization
 Nettie announced beautifully and he
 was completely won over. Nettie asked
 everyone personally for suggestions and
 encouraged all. Flens also asked
 also quite a number of questions and
 he was pleased. Many good Resolutions
 were passed. A creative joyous meeting,
 and I feel Our Mother would have
 been highly pleased seeing how
 fine her daughter acted in her
 part as the New President of the
 Society -

Mr. Earl J. Schrock wishes to form
 an Academy of Creative Arts of
 Roubin Museum - a sort of competition
 to our own work and is especially
 interested in giving out Honors ^{Medals}
 creating ^{also} a body of Academicians etc.
 He is a very young and argumentative
 Let him first start a Society
 devoted to Artists as he thought of
 doing in the beginning and let us
 see how well she handles this
 work.

10/30

Doctor Hill was here and had lunch with
 us. Nettie had a long friendly talk with
 him. He may send his daughter here to
 stay with us.

The Rosecrans Society had their first Meeting here in the Kiva Room - they expected 150 and over 425 people came. They were delighted what a Magnet this place has become. I made the welcoming speech and ^{they} seemed well pleased. It was the first time, that I did not let ^{any one} write the speech for me, but really spoke my own words. Certainly my English can stand much improvement. ^{to}

• Nothe in the morning had a group of 6 reading them and discussing parts of the "New Era" -

Nov 3rd

We gave a nice Tea to ^{the ladies} ^{for a party in the Museum}. Told Sina that Mrs Schafman keeps the Maids much longer than any other tenant also that she insists besides this that twice a week a general cleaning takes place which is never accorded to any other tenant. That she shows lack of tolerance to the Maids. Told her lack of tolerance of one Trustee reflects on all Trustees. ^{She} Told Sina was excited, but then she accepted it nicely. Told me it was simply impossible for her to tell this to Mrs Schafman but begged me to tell her personally. Sina stated she has so many fights with her Mother I told her I did not know ^{this}.

Kestars lectures continue to be most successful. Will also speak for the Maha Thodi Society. Mrs. Sheldon will be secretary of that Society. Bloom is reelected. The country went strongly democratic, showing a strong rebuke to the present administration.

Lund with Suetro - he offered to give \$100. - towards publishing first Book of "Banner of Peace". - Mrs. Helen Taylor now Secretary in the Society. - A leak in the Auditorium ceiling - much trouble. Many people begging for jobs - conditions getting worse. Sina so anxious to join Sweetig's Masonic Society, despite Sweetig's warnings against it, that she went behind his back and made application to join through someone else. Sweetig found ^{this} out and she discovered that she would be blackballed if she tried to join. Sweetig finally talked her out of it. Sweetig coming closer to Nettie and myself - he is getting tired of his present friends. - He is a Harling Boy.

No 6 Saw Anglinson asking him to tell Doctor Berleth to take care of Florius. It was not easy, but he promised to do it. - Mrs. Enson of "New Era" Magazine coming will publish Article of Prof Roenick in 17 languages.

Secretary to Nettie

Spoke to Kestav did he have any other approach to the Prince of Wales? He said no, but he sends him spirited thoughts. Kestav is a fine speaker, but his statements must be taken with great caution - they are not based on actual facts.

Bloom will make a speech in Congress about our Institutions. He asked for a speech for him to be written

Last year I don't think Modis ever sent him the speech as was promised to him because we could not find copy of letter

 Afternoon an Opera "Contentment" given in
 the Museum by young people at 5³⁰ Meeting
 of Theosophical Society. In the morning Lecture
 by Keshari Kellogg still going around from
 place ^{to place} ~~to place~~ to publish the planned
 Boy Monthly Bulletin. One still feels with
 time a total lack of understanding. I want
 to love my sister - the work is so great, yet
 how often in the same room with her
 one feels so uncomfortable. Modest trying
 very hard to improve also trying to become
 more practical -

Society American Society for Advancement of Science
of which Prof. Peirce is a Member to intervene
also many other organizations are being asked
to protest to the British Government
Almost daily new organizations are being
organized by Society of Friends - the growth
is remarkable.

Nancy Fullwood tonight spoke in the Tibetan
Library on Sansa Tarot most interestingly. - She
read some Messages also said this Message I
just read was signed M - but added I
don't know who M is. Mentioned how a
Cross appeared on her wall in her Room
and remained for 3 years. A charming simple
woman it was a fine evening. The Messages

she was once in doubt and she heard 2
tremendous knocks. On, but thinking how
to find new means and ideas to help
Prof. Peirce. I don't want to lose an
opportunity in this serious time.

Flavins is getting to be a big boy - looks
fine. Yesterday he witted himself apparently
too much, began to get red and then
respired profusely - We gave my mother
and father 2 Rooms here. They don't bother
us. It will save ^{us} \$1700. - per year and at this
time we have no right to waste one cent
Would perhaps preferred them living away
from here, but it does not matter.

It is most important as outlined by Mother to practice amongst ourselves how correctly and powerfully to answer people "To be bold is to know way to the future."

Really no one will give us a cent, except we demand and really the "City of Knowledge" should appeal to Americans.

It shall not be easy to sell and watch that the Shield of the Coworkers is kept pure, but will do our best. When Cas. said "they let Kellogg in" I replied "Yes, but what good is this without ~~the~~ letting in ^{the} Leaders" -

Feel this could have been answered better. Kellogg offered to pay for the Printing of Agni Yoga. Many improvements had to be made in the Building due to negligence of Mr. Hall.

● Cable from Father advising refusal of British Government to let him proceed to Kulu to see Panch, who is so sick, also advising that George is sick with Heart trouble. Cook cabled Bern India office, so did we. Negotiating with American Red Cross. Really ^{the} British attitude is downright stupid.

This doctor carries instructions from Doctor Lopeyro Paris for Mad French's house to Street 1100 Social's heart Bailey the Standard of the British Government fall on a lower step. We are calling on all Cultural and Scientific Institutions of America to unite and to demand Justice.

Kellogg got the money today for publishing Ogan's Yoga. Mandy will advise me tomorrow regarding his going to Europe. This will be most successful - we need a man there to present our case.

Nov 15

Saw Mrs. Kahir (Moss) to ask her assistance for securing visa and she replied she knew all about it. Was very friendly and promised to advise me if she would help us.

Brook's Commissioner General of Australia was shocked to hear about British ~~attitude~~ attitude he promised to speak to British Ambassador beyond is incensed at the stupid attitude of England.

Mr. Mandy agreed to sail Friday May 16 to London for us. Really it was very good of him to do it, because he is really busy. His visit will be most valuable for us. Mandy is a real fighter and a bold man. I wish I saw him called to Richmond Berris.

Preparing for Mundy's trip, Spencer Lewis
wants pictures loaned for Rosecrans Center
in California. The Rosecrans had the
first Museum in 1694 in America.
Nettie told Sina about speaking to her
Mother not to be so apparent during
lectures and recitals. Mrs. S. wished to
be as usual the whole show - her loud
voice and accent does great harm to
any refined person visiting the Museum.
Sina replied "No she can't speak to her
Mother as her Mother resents her so much
and would like Nettie to speak to her."
Still the same Sina shifting at all
occasions - just like Gyang used to have
to hold Mrs. Schafman's head and hand
- Sina would not do it - Sina and
Mrs. Schafman are so shocked when pointed
out, that they made a mistake. Such
egotism and conceit! Nettie pointed
out Mrs. Schafman's and Sina's personal
responsibility in the law suit of
Mrs. Schafman. It can be settled for \$350.-
Who is to pay for it? Nettie asked
them to decide. Sina first replied
"Certainly the Museum should pay
for it." - not in the best feeling, that
it is easy to shift everything upon the
shoulders of the Museum. Thank God
we are on to Sina's & her Mother's Indignities.

Only always to think big! Everything with a

Mundy believes better to wait regarding doctor

the "State Department" says "that the
whole thing is a misunderstanding
on the part of the British Government. This
Mundy will clear it up. We are trying
various organizations to help us.
Opama's letters with copies of Mrs.

Spoke to Castle, he highly approves Mundy's going. Mundy will try to settle everything in a most friendly basis. He will give proof that information of Foreign Office is received from noncompetent small local officials. If the Foreign office does not wish to listen to reason he will take further ^{steps} ~~steps~~.

Woman Clubs with Memberships of 500,000 are very indignant at the treatment received by the British Government and are ready to help by coming in touch with the various officials in England. Sina bitterly objected telling her Mother that people are objecting the way she handles guards in the Museum also the uncultured manner in which she addresses people - Sina said if I tell my mother it will kill her. Nettie replied "you want me to tell her and to kill her"? Later in the evening Sina said she has ~~or~~ reconsidered and she will speak to her Mother telling her she needs rest to develop herself spiritually. That her stopping these old duties ~~is~~ it really means an advancement for her.

This evening Mrs. Schapman resigned her work in the Museum she spoke very nicely. We will no doubt let Mr. Koepf handle the clearing of the Museum.

Gave final instructions to Mr. Munch
-to try in every way in the friendly way
to point out their ridiculous ~~ideas~~

Poorna gave a splendid Lecture at the Thursday Meeting. Everyone loved her way of speaking. Poorna smiled during the whole Lecture. The ~~speech~~^{movie} were excellent - it was nice to see Gona on Horseback. Poorna said after the Lecture "Madame Roerich made me - she gave me such Courage". -

The Lecture will be repeated. Miss Ketunen came today, that the Finnish Consul General hinted about Communism and Prof Roerich (some of the British Government Work.) We advised her what to say.

Nov 25

• For Mr Priest Metropolitan Museum ^{he was} most sympathetic - mentioned he also had trouble with ~~the~~ securing visa from Great Britain and only finally received them reluctantly, but felt his conservative Muslim would sympathize with us. ^{the museum} ~~it~~ never acts for anything or anybody. - Nettie met Mr. W. H. Kahn at the Hermitage, she mentioned she spoke to Mr. Kahn about it. Mrs. Kahn said they heard something about Communism (British word). Nettie Power Bully spoke to her - we all also writing a letter

1930.

Stokes came proposed Malcolm Schloss to take care of our Library, which he felt could be a great Center for making new friends. It is true, that at present our Library is not properly taken care of; Schloss who has a world of experience having had his own Book Store would build it up without any Salary.

How help comes from new sides. — Now Manie Strauss he still feels a great campaign "Peace through the Arts" as its slogan to raise a Million Dollars should be begun. He is willing to work for nothing. He feels the whole sympathy of the world is with us at this moment, on account of the non-granting of visas and full advantage should be taken of the situation. He feels ⁱⁿ out of town cities women do not know enough to talk intelligently about Russia, but "Peace through the Arts" they can all talk about that. He further added, when America was prosperous the Americans felt they were Gods themselves, but now Americans are gasping for some new God to pray to and now is the time for your institutions to take full advantage of this remarkable opportunity. — The French Association Society was glorified

Personally liked Strauss's ideas.

35

Many Consul Generals were present. Monsieur Mogendre French Consul General spoke beautifully about Roehrk especially Roehrk's visit to the President Roumerghe. Consul Generals of Egypt, Panama, Jugo Slavia, Brazil and others were present. Roehrk's cable from Pondichery aroused great enthusiasm—

Thinking, thinking how to raise funds. Today new white nurse came for Slavins. Seems to be friendly girl. Marie is very tired and her back hurts her and she wants to take short rest. Strauss also mentioned the English attitude in Palestine has at last united all the Jews.

Nov 29

Today Yenta's letter to Castle came - it is one of the finest letters ever written. I copied certain parts of this great document to use in letters. If Castle only will read it I am certain he will rejoice. Here everyone is surprised that so much has been done by Washington Mundy's cable was very optimistic saying that his first overtures with Foreign office were well received. On the boat he also met an important man. The spirit shown by Mundy was fine - he had obligations here, yet he jumped on the first boat to England.

Mundy feels disgusted with the British attitude, so does everyone here whom we speak to - The letter sent by the Lady to the Vice Roy is remarkable!!!

Marie went away for a two weeks vacation - she deserved it such devotion must be appreciated - truly she was sent by the Lord.

Discovered we have a Tracteer (Gangster) living in the Building - our Lawyer indignantly wrote him a letter to vacate.

Modra after being "humble" became cynic and began "feeling hurt"

again. She invited Mr. Hel Campo and other Gentlemen for luncheon. Mr. Hel Campo is a Museum Director from Argentina. Some men sat down others stood up so finally told her something (being this was her party) please get some Chairs for the other invited friends. A few days later she told me, that I did not show proper respect by asking her to get Chairs. Was the President of Metropolitan Museum go out and get Chairs? I can see many ~~of~~ financial possibilities were overlooked by her in South America. She refused to take works of Art to South America for selling purposes, what will now happen

Someone else will send an exhibition down there and sell many things.

Mr. Parks from Peru was here I told Mr. Parks to secure funds to use 2 Rooms in our Building exclusively for Peruvian Art - Trancey would not sell it to her to pay for Secretaries funds we also needed, oh how Modia and Sina are spoiled. Yes, in our most difficult financial time Sina draws besides her earnings as Teacher of the School also \$2500. for Administration, she could not wait until the earnings of our Institution were sufficient.

I must speak to Koyed to reduce salaries of employees, as his payroll is higher than Mr. Stalls. -

Leon Habo maybe asked to go as Lecturer to South America, he is one of boldest Speakers in America and really he could be truly useful for us down there in a practical way. Modia is anxious to go to South America again as soon as possible I see very little of Sina she keeps herself very busy - good.

My darling Brother Suetig spent a hour with me today - he is ^{so} darling. - He looks fine, is anxious to earn more money. Doctor Kestor spoke again today.

on Buddhism - simply divine. Really
 what fine spiritual knowledge is being
 given to the world in our Building.
 Nettie beautifully introduced him to
 the Audience.

The Law Suit of Mrs. Schapiro was
 settled for \$350. - and after Nettie gesturing
 boldly pointed out her responsibility
 in this matter that we cannot shove
 our faults upon the Museum -

Mrs. Schapiro after "Conference" with
 Sina decided to personally pay the
 \$350. - When you take money from
 people in America it will never be
 forgotten their pocket book is their
 highest possession - their God. -

Nov 30

Flavins has been vomiting again and
 has a sore throat. We hope he will escape
 serious illness. - The Finnish Association
 had its first event. Consul was ~~present~~
 present (first he did not want to come)
 also a Finnish gentleman from the Times
 as well as about 75 guests. A nice event.
 My speech of greetings was well
 received. Many complimented me.
 Leon Hapo had lunch with us, we
 asked him to help us as he speaks
 at many out of town cities.
 Ellen Mattunen saw before going to sleep

that there was an Announcement in the Times "That the Foreign Office announced, that the Pacific Case has been closed up. Our Kiva Room has been rented by Club for one year for \$3400. (we pay for Electricity) Really this is fine and it helps.

Dec 1st

Florus continues to have Temperature of 102 1/2 and a sore throat. Exhibition of Miss Hammond opened with many interesting people present. A reception was held in her honor. Mrs. Clabough also heard about slander of Communism we told her what to answer. Again encouraging news from Mundy. Cannot get over Bjorn's beautiful letter to Castle - a masterpiece. -

Dec 2nd

Mundy's cable stated, that London at present is not ready to give visas - his cable very optimistic, despite this message. Upon Nellie's suggestion we called him to insist of Piffle's presence at medical Conference. Florus was better. Greatly concerned about financial conditions, thinking how to find means to cover our needs. Bistran and Giles are starting a Guild class. Pictures will be painted for the School Rooms.

Dec 17

Invited by Mr. Yankowitch General Consul of
 Jugoslavias for a splendid Luncheon in
 honor of the King's Birthdays. Evening before
 had a nice Student's Reunion.
 Lina, Frances and myself spoke and students
 did some nice work. Modra and Lina
 are on the Committee of the Woman's Committee
 of Mantzavetoff's Cultural Work. Tereshkova's
 cooperation in this matter has been
 lacking to some extent.

Conditions here are very bad - men
 receiving formerly \$ 15,000 a year
 now take positions of \$ 20. - per week.
 Personally greatly worried! Dad
 At present people who have funds
 want to give only to feed the poor.
 Tenants are paying slowly. Believe Modra
 must give lectures out of town. Her friend
 here Lukewarm in helping us financially.
 Lowenstein died - rather young man.
 Evening excellent Cultural program in
 honor of Bolivar "Liberator of South
 America". He seems doing fine work.
 Zamparo came said we have many
 enemies who are advising him to keep
 away from us. Shortly she will tell us
 some names. Zamparo is Consul General
 of Brazil. My speech was liked. Portrait of
 Bolivar was presented to us on this celebration.

Concerned about (Financial situation)
 Tenants pay very slowly - yet we have our
 fixed liabilities such as Interest on our
 Bonds, Taxes and Bank Loans. Our
 Bank Balance is low and besides this
 very difficult now to sell our Bonds.
 We must sharply curtail our expenses
 in every way, perhaps in January
 conditions will improve again -
 However on account of depressed conditions
 of prevailing here which seem to be
 getting worse the financial situation
 looks very dark - even payments
 by Tenants look uncertain. The
 people's condition here is even
 difficult to convey to you. As much
 as possible we are delaying payments.
 Each difficulty we know is also a real
 possibility - and we shall have no
 stone returned. Mrs. Terry sent us
 a check for \$400. - and promised to
 help more later on.
 Lecture of Manly C. Hall was given by
 Astological Research Foundation was
 very successful - a man of great
 learning. Tharvis speaks a great deal
 now - he loves music so much. He
 now makes a deep bow and puts
 his hand on his heart.

Strange here again we are facing financial difficulties, naturally it concerns me yet I feel calm within and full of courage. I have absolute faith in Our Lord and I fear nothing. It is astounding how from a fairly good financial position within a few weeks everything changes. - How evolution is being quickened I feel great possibilities are around the corner. We shall walk like Lions. Doctor Kamm - a fine man he feels he knows some people out in California, who may help financially. Papicavoli's daughter going to Chicago will also visit Mrs. Moody. We advised her to speak to Mrs. Moody about our work. We wondered when Gena, my beloved Sister will return. Models trying hard to raise funds. Mr. Bennett here with a nice group of friends - a good friend of our Institutions. Mr. Hall is now Manager of a Hotel on the East Side.

Dec 20

Manley Hall who spoke here again most remarkable man speaks of O. H.ology quoting all the great Teachers of the past. Never before did we hear here such speaking. - Wonder how Mother and Father would consider him. Before he

came already 600 Tickets @ \$1⁰⁰ each, were sold
 by the Zoological Research Foundation
 Trying to have him live here in our
 Building. Tossed out Modra about Mr.
 Hall and his ability. Mrs. Murdock from
 Pittsburg came we spoke to her about
 raising funds and our giving her
 20% Commission a man who raises
 funds for Columbia University comes
 on Tuesday, perhaps he will help
 us. We are speaking to everyone who
 may be useful. Somewhere we will
 break through and find sympathetic
 people. Mr. Koerber who is cooperating
 in every way ^{single} ~~to~~ ^{to} ~~reduce~~ ^{to}
^{own} salary reduced 10%. - Modra shows
 a nice spirit ready to draw less weekly.
 Sims who earned \$277⁵⁰ in November
 and receives besides this \$50. - per week
 "Administration" (after hard work) ^{offer}
 for the present to draw only \$25. - per
 week from the Administration
 Morris earned \$161⁵⁰ in November
 We will discharge 3 Sentores. My Sentory
 will work half a day in the Society
 of Friends. Instead of spending \$11,000 -
 per year for Guards in the Museum
 now only \$5000. - and now there is
 even better order. Have been begging
 for economy for 6 months. So many here

are spoiled. Of course now working to reduce costs of running Hotel - this is the big thing. And is not so easy, but after Jan 1st will do so. Noticed Steamship tickets reduced from 10 to 5 1/2%. Montgomery Ward & Co who specialize in Mail order business and especially do a big business with Farmers reduced their Catalogue prices to the lowest in 20 years. Great changes coming in America. Perhaps like Ambassadors do our Rodas and Modas will write and letters by hand, instead of calling every Minute for Secretary. - Nowly we check up telephone calls. We have about 5 Volunteers workers now in our Institution.

Dec 21

Prof Kaim stopping here at Hotel - will give a lecture tonight. Harsh Edgeworth Hewett comes a fine man. Will write to you - wishes you to come to New Mexico for excavating work. May have here an Exhibition of his excavations next January which marks the 25th year of the work of Archaeological Institute. Also considering going to Tulum next year. Received wonderful letter again from Ojama's Betty so happy that my work pleases Our Mother Oh, I have to work wisely and intently to make up for all Our Mother and Father have given to me. It will take

incarnations to make up their
 generosity to me. My one prayer
 not to lose such opportunities!
 To strengthen what and to hold
 what Our Father and Mother
 have given and to prepare constantly
 for new work. Habo is clever.
 A Mr Kohn ^(not Otto) told me he met Habo
 and told Habo, what a fine institution
 the R. Museum is, but he added tell
 me Habo "where do they get the
 money from?" Habo replied "I
 hear Roenich is such a great man
 (then whispering into his ear) that
 he even can materialize money."
 Keska going to Washington for 3
 Months. Mabel Hall will begin
 Lectures January 10th. Malcolm Schloss
 will live in Keska's Apartment
 while away and Schloss will take
 care of ^{our} Library. Thinking thinking
 how to reduce expenses in the
 Hotel that the big thing to do.
 Felt bad over Madame Roenich's
 illness. - Flavin has a cold again
 with Asthma. Sorry to bother you with
 financial news, because I know under
 what difficult strain you are and
 we know this problem will be
 solved without a doubt.

Mundy will send you report of his trip
and next week full report will go to Mr
Green Esq. High Commissioner for India —
this for the Lord

Regarding reducing salaries, Sina has
completely overlooked another opportunity
to cooperate. Absolutely no understanding
Only after talking and explaining and
again explaining could she see any need
for helping and only then under special
Conditions. The British Museum is
without funds, so is the Archaeological
Institute. From 961 failures of Banks in
the U.S.A. during this year has now
risen to 1114 Bank Failures. — We have
decided to reduce the Hotel Wages as
well as Salaries of Secretaries 10%.

With all this depression ~~and~~ I
hope that Prof R and Mad R do
not worry about our position here
No need of worry. — Mr Geoffrey
Hodson an Englishman gave a fine
lecture here on the "Search for Reality".
Next Sunday another Englishman Mr
Ross will speak at 11 o'clock in the
morning in the Tibetan Library.
Sina and Frances are now both
planning a trip to California!!
Remarkable this is such a big Country
and both are striving to this our spot. 'H'

Nov 28

Brooma every Sunday at 10 o'clock has a group to which she reads Teachings. Usually at 11 o'clock Hactor Kestor or other invited Speakers give a talk in the Tibetan Library. In addition ^{some days} our Sina announced that at 12¹⁵ she will give ~~an~~ Agni Yoga Teachings to a group. The same Sina ^{always taking} Telbot Mundy and his Lady Friend owe about \$3000. to the Hotel. Suetig feels we should wipe out this debt. Feel the same, because ^{perhaps} we can't collect it anyway. Mundy is clever and will be useful in other ways. - Suetig looks fine and usually late in the afternoon I see him and that is always a joy. I value him greatly and he has fine intuition. - Sorry to write to Prof. R about financial difficulties - really I am foolish, when I know they will be solved -

Nov 29

Catherine loaned us \$5000. - without charging interest. Suetig neither Sina or others know about it. A splendid deed on her part was deeply touched in the beautiful way she came to see Nettie and myself. Again help comes from unexpected places. We promised not to mention it except to the Parents.

no question about one thing, the
 greater the depression, the ~~more~~ more
 the demand for Books will increase
 This is proven in England, that last
 year more Books were published
 and sold than ever before -
 Will real active handling a great
 success could be made out of it

As the Kiva Room has been rented
 out for the year - there is at the
 moment no space available for
 guests desiring to give some private
 parties. Every Hotel has these ^{type} rooms.

It is difficult to do this on the
 upper floors, because people
 living there object to late hours
 and possible noise from private
 parties. Decided to let them use

the 2 Crown Mundi Rooms in the
 evening. The situation is excellent next
 to Dining Room; of course only after
 5³⁰.

As it is often on the
 opening of Exhibitions we served
 Tea there. Wonder if Prof R wishes
 us to change Catalogue, etc etc
 Since the "de Koenig" has been
 added to the names

Still must learn to be calmer -
 everything must be done in a beautiful
 way. Only through Calmness can one
 reach the higher States of Perfection

Both fine workers and yet you feel
 in both of them continuously the
 personal everything through their personal
 ego. Too bad. Marbin is still completely
 under Sina's and Mrs. Schafren's sway
 Great activities on all fields —
 Each Institution is very busy. —
 Fine write up in N.Y. Times about
 Prof Mather's Old Master Drawings.
 Regarding P.M. Press believe we should
 publish all Prof R's books and
 Spiritually indicated Books, but
 to publish a lot of other Books now
 is a question. The whole Book market
 is changing in respect to the cost
 of Books. It seems the trend
 for Books is to have less costly books
 and reach more people. Besides this
 in the Bookshop in the Museum
 Lobby we receive all Books of many
 Publishers at 30 to 40% Discount
 on Consignment this gives a nice profit
 without a risk. To publish books
 believe wise to follow Prof Reich's
 suggestion and find out cost of
 publishing in Vienna and Germany. —
 Books It seems should be sold out
 \$1. — and should cost us no more
 than 25 to 30¢ per book to print
Of course sales must be pushed constantly There is

the lecture was only fair

Modra gave a lecture tonight (Mr. Stokes introduced her ^{as} ~~the~~ "Right Hand" of Prof. Ricci's!!! Marie came back today very happy to have her here again she is a fine soul. Sidney and Jessie are also such fine spirits. Sidney does excellent work at our Weekly Meetings as he often balances and cleverly brings into discussion his impressions based on practical Wall Street Experience -

Flavins nicely says "Jesus Christ" - The food in our Restaurant is wonderful - working hard to build it up

Reading proofs of Agnes Yegor ^{and her writings} Publicity about Prof. Mather ^{is really} remarkable. People in our hotel prefer the Movies, which we give once a month

To our Lectures ~~we~~ perhaps 30 Tenants may come to a Moving Picture 3 to 400 hundred. Nettie will have to give her Lecture again by request of many people -

Hee 31st of Dec 31st

Mother

Glorious letter (of Our Beloved Mother) came! Just on the last day of 1930 - a letter we should daily think about - a perfect guide for the coming year - for all times. How Our Mother wishes us all to grow and to take our real designated ^{positions} places by Our Lord. How we must constantly strive to the Highest

I will do my utmost to try to work along the lines so often indicated ~~by us~~ & greatly enjoy reading Jufirmity.

Hester telephoned from Washington advising us of his great success in forming new groups and an appointment with Pres. Hoover and other notables.

Mundy is anxious to go to London again, also he would not mind going to India (at our Expense). Spoke to him about cancelling $\frac{1}{2}$ of the \$3000 - he owes the Hotel for 6 Months Rent and Restaurant charges, but he felt while at London he sold a book of Mrs. Haver Allen (intimate friend) for \$400 - - concluded a new Contract with his Publisher and since his Return sold 6 Series for \$9000. that he does not wish to be paid for his trip. He felt that his going in no way ^{in any way} ~~caused~~ caused them any loss. He appreciates that we did not press him for the Rent for 6 Months, also before that ^{we} reduced his Rent. We were patient with him (of course some of our Sisters did not know we gave him so much credit). - Well, he is a mighty useful man - perhaps Father has some idea about it. For the time being I will say nothing further. - anyway we offend him twice to cut his debt.

January 12th 1931 | Flavius has again ⁵⁷ a cold
the 4th one within a short time.

January 1931 - so often indicated by
Our Lord in the past! A great year!
Really I face it with greatest confidence
and without any fear - I know, that
no matter how dark the clouds may seem,
at the right moment the Ray of Our
Lord will appear and all seeming
darkness vanishes. How many hundreds
of such examples we have seen!

Also it seems, that obstacles I face
with much greater Calmness than
before - although Calmness in daily
life I must tremendously improve
in the coming year. Constantly I have
Prof. O'Connell's Calmness before me
and I am striving with all my
spirit to attain it - difficult as
it is. Reason can face the coming
year with courage is the help of
Our Lord and the constant care
love and courage thoughts encouragement
sent me by Our Great Mother
and Father - Really how to thank
you for all that you are giving me
Constantly!! How wonderful you
are to Porciana and to Flavius.
Greatly rejoice to hear of the great
spiritual achievements of My Beloved
Sister Giana, who is so near to my spirit.
How boldly she defends the Works.
Akerson Secretary of Hoover resigned - not sorry
