THE BAKER

DALLAS, TEXAS

Miss Frances R. Grant,  
Executive Director,  
Master Institute of United Arts  
313 W. 105th St., New York City

My dearest Frances:

You do not know how delighted I am with the splendid progress that your organization is making, for we do feel that without the good start you gave us we never could have reached the point we now hold culturally in the South West.

I don't know just when I will be in New York, but when I am I want us to get together and work out some plan whereby you could do extension work during the summer months in New Mexico.

What has become of young Mr. Roerich? Tell me something of the Horches and the Lichtmanns. When you have time do write a nice chatty letter telling me about every one of your delightful group. I shall certainly get in touch with you when I am in New York again.

With all good wishes in the world, I am

Sincerely,

(Signed)

Elizabeth Bacon
