GENERAL FEDERATION OF WOMEN'S CLUBS

June 23rd, 1931

Miss Frances R. Grant
Vice President Roerich Museum

My dear Miss Grant:

Thank you for your letters concerning the Roerich Pact. I was allowed time to made an address concerning the plan during the recent convention in Arizona and the resolution was unanimously adopted by the five thousand delegates representing three million federated clubwomen.

I will take great pleasure in visiting the Museum and in meeting you next time I am in New York.

I am sending you the new art booklet, if you need more, please let me know.

If there is anything more I can do, please let me know.

Yours cordially,

(SIGNED) FLORENCE TOPPING GREEN

My dear Miss Grant:

I received your release and am very much interested. I wrote at once to the editor of the "Clubwoman", our national magazine, and gave her Professor Roerich's message.

I am so glad Mrs Sippel gave her consent because when I sent the resolution to the committee for approval before convention, they telephoned me from Washington saying that no art association there knew anything about it. That was the reason they gave me twenty minutes during the convention to fully explain the pact before the resolution was voted on.

Thank you for inviting me to be a member of your committee, I will gladly serve and will await orders. I am willing to do anything to help in in the cause of art.

Your Bulletin is very interesting.

Yours cordially,

Signed: Florence Sopping Green

My dear Miss Grant:

I had a similar clipping already to send you, the Conference must have been most interesting, I followed up the accounts each day.

I am starting for Washington to-morrow to attend Board meeting and for other business, I will not return until late in October so I cannot accept your kind invitation for awhile.

I wish you would be a member of our party to attend the International Art Congress in Vienna, next year. We could do great things in bringing the Pact before the delegates from all the countries in the World. The Pilgrimage in connection with the Convention is exceedingly reasonable and very delightful. Let me know if you will consider it.

I have just received a letter from Professor Nicholas Roerich, from Kyeleng, India. When he returns I am to paint his portrait, a miniature on ivory; if you have any good photographs of him, would you kindly loan them to me so I may study them. He will only be able to give me only a few sittings. All mail will be forwarded to me.
