My dear Brother and Friend:-

It was a great joy to me to receive your most valued letter from Bethlehem, N.H., dated August 19th. Accept my sincere thanks for your fine and encouraging words.

My answer was delayed as I have been unable to dictate letters because I have had some abscessed teeth extracted.

However, I reciprocate your splendid thoughts in fullest measure. As we have been repeatedly told by the Great Ones, the forces of Light have been victorious on inner planes over the powers of Darkness. May we all be permitted to continue to do our part in the great scheme to secure the Victory of Light now also on the outer plane of Life.

We know that we are one with you and your co-workers in the cause of Light.

We had a fine convention time backed by high spiritual forces of peace, unity, harmony.

May you have enjoyed your vacation in the white mountains, and may these lines of greetings meet you in the best of health. I remain, as ever,

One with you in the Great Work,

Sincerely, your Brother,

My dear Brother in Spirit: -  
 Your good lines of greetings to the New Year have been received & are very much appreciated and encouraging. Our hearts go out in love and understanding to you & those who are holding high the banner of love & faith & courage with you for your leader, Professor Roehrk, for it indeed only our unchangeable attitude of love, of unity, of faith in the victory of light over darkness, and in the victory of unselfish work for the human race which will usher in the Great Day of Light, & only by holding up high these principles we can fulfill the great trust that the Masters have placed in us as their servants & workers on the outer plane. And in doing this one has always to expect to be a target of the forces of darkness. So we are ever standing side by side with you & your faithful workers and one with you all on inner planes in true service to humanity for the forces of light.

Yes, it seems as if this year 1936 will bring great changes. May the efforts of all those who are awake in the human race

become powerful enough to dest<sup>roy</sup> the clouds that the great Light may break through gloriously and victoriously!

The friendship with you is like a ray of light, I thank you for your fine words and understanding. I have not been well for a long time, but am feeling improving in strength, though very easily tired as yet. Our most sincere wishes for you and your co-workers are going out to you. May the light within our souls become so strong that it conquers the darkness around us and disarms the enemies.

I remain, as ever, my dear Brother and Friend,  
Sincerely & Fraternaly  
Yours
