

April 23<sup>rd</sup>, 52

Dear Prime Minister;

I am very interested in the idea which Dr. Chatterjee has placed before me regarding the creation of a Welfare Center for National Laboratories and other Scientific Institutions, <sup>in</sup> which you are interested.

Enclosed is a small check to give it a start, and ~~I am~~ <sup>I feel</sup> a movement of this type will be good for India and am happy to be connected with it, as I love and respect India for her Philosophy, Culture and peaceful attitude in all human and world affairs -

Most Sincerely

H. S. C.
