Dear friend -

The year has passed since last
I saw you it seems but yesterday that I
bid you farewell in San Francisco.
Meanwhile much has happened to me as well
as to you, & of this I mean to tell you at
some length now that I know where to reach
you. I shall write you a real letter in a
few days. During these years I have thought
about you so often - very often in fact, &
many times I have wished to be with you.
Had I been free to do so I would have joined
you - once I was very near to doing so.

Now send you my love & my heartfelt con-
gratulation on the successful completion of the
first part of your great work.

God be with you. Your devoted friend
Naurvik
