Dear Mrs. Lichtmann:

Thank you very much for your letters, which I received just at the time of my own troubles, with news from the USSR that my sister was shot for her religious activity, and our home in the province of Pskov, in so far as a local museum, being planned to change into a public building of other kind, etc. Like Professor Roerich's troubles thus my own are all moves of our destiny, so we have to accept those calmly and trust our turn of time in the future. I am still revising my 'Key of Time', a secluded hermit here. Will be grateful for all further information on Professor Roerich's matters here and abroad. What happened to his societies? With best wishes to you and Mr. Lichtmann.

Sincerely yours,

D. Narodny
