Kulu,
Punjab.

Dear Sir,

Dr. Rabindranath Tagore asks me to thank you for your letter and to inform you that he had duly received the copy of the large Monograph - "Himalaya" by Prof. Roerich which he has so kindly donated to our Institution. The book was duly handed over to our Art Department where it is being studied with great profit by our Artists and Scholars. We learn that the Art Department had acknowledged receipt of the generous gift and feel extremely sorry that it should have ~~been~~ miscarried.

The article by Prof. Roerich, as I wrote before, will be published in "The Golden Book of Tagore" which will come out by the end of November just before ^{the} All India Tagore Septuagenary ^{Celebrations} to be held in Calcutta in December. This article will find

its fitting place along with the ^{other} precious contributions from the greatest savants of the East and the West who have sent their articles for the book.

With cordial greetings,

Sincerely yours,

A. C. Chakravarty

Secretary to Dr. Rabindranath Tagore.
