

1

We have recently seen several good references to Cecil de Mille in newspapers and we remembered how some time ago he showed desire for cooperation with us. Not only I but also Sv could be very useful to him in his work. All idea which he favours are close to us and if he would get to know about this from friendly sources, contact with him may be established. Even such a poorly done film as 'Lost Horizon' has stirred the whole world and we have repeatedly heard about this film not only in newspapers, but in letters from friends, full of enthusiasm. And many similar and all sorts of impressive positive historical films may be accomplished.
