My dear Mr. Horch:

I am sorry that I was not able to get the information concerning duty on scientific apparatus to India before you left our office. I am now informed that the duty from the United States and England. I presume this also includes chemicals, although I am not certain on this point.

It was a pleasure to hear of the progress of the Roerich Museum, and I am sending you all good wishes for the success of your new undertaking in India.

Very truly yours.

Signed

H. A. Spoehr

Dear Sir,

I shall be very much obliged if you can inform me whether there is any rule under which instruments and any apparatus required solely for scientific purposes can be imported into India free of duty, or whether there are any special rates for these things.

This Institute desires to import some of the above shortly and I shall be very grateful for any information you can give me on the subject.

Yours faithfully

A. A. Mahon

Colonel
