BUREAU OF FISHERIES

WASHINGTON

ADDRESS ALL COMMUNICATIONS TO  
COMMISSIONER OF FISHERIES  
WASHINGTON, D. C.

IN REPLY REFER TO FILE

4-

December 4, 1930

Subject: Publications.

Library, Roevich Himalayan Research Inst.,  
Naggar, Kulu  
Punjab, India.

Gentlemen:

This bureau is in receipt of a letter from Mr. Geo. M. Stanley, of the University of Michigan, Ann Arbor, Mich., transmitting a request from Dr. Walter Koelz to forward you copies of Documents Nos. 1001 and 1048.

Document No. 1048 is being forwarded to you today through the International Exchange Service, but the bureau regrets to advise that Document No. 1001 is out of print and it has no copies on hand of this publication.

Very truly yours,

*Curry D. Malley*  
Commissioner.

Don  
you should  
get this

A general history of Dichlamydeous  
plants, 4 vols. about 1835

Contains descriptions in English  
of some thousands of Indian species.  
Mexhensine. probably not over \$10-\$15<sup>00</sup>

Roxburgh, W. Flora Indica, Clarke reprint of  
about 1883 probably about \$5<sup>00</sup>  
you should  
get

Is an exact reprint in 1 vol of  
all the data included in the 3 vol  
edition of 1832 (ed 1 & 2 rare &  
expensive) This Clarke reprint is  
inexpensive

Essential

Hooker, Flora of British India 7 vols  
essential but rather expensive  
probably about \$75<sup>00</sup>, possibly \$50<sup>00</sup>

Zinnel

Systema vegetabilium  
1825-1827 4 vols  
probably \$10-\$15

Highly

desirable

but

not

absolutely

essential

Roemer & Schultes

Systema vegetabilium  
1817-1830 6 vols.  
probably \$10-\$15

Willdenow Spec. Plantarum

7 vols. 1797-1830

probably \$15-\$20

These last three are inexpensive  
but rather essential. They contain  
Latin descriptions of all species  
known up to dates of issue

7  
Some of the "local floras" covering  
at least some part of your area  
listed in Blatter's Bibliography  
(I sent you titles aboutaining to the  
Punjab region some time ago)

Most of Wallich's, Wight's & other large  
publications on the Indian flora  
issued in first half of the last  
century are very expensive and  
very difficult to secure

There may be a few sets of periodicals  
desirable - Journ. Bombay Nat. Hist. Soc.  
Indian Journal of Botany (both  
current) Rept. Bot. Survey India  
(current) - probably can be had free  
on request to Calcutta Botanic Garden.

Not  
essential  
Annals Calcutta Botanic Garden with  
full plates on certain restricted groups  
with excellent illustrations vol 1-18  
is very expensive & it is difficult to  
secure complete sets

Highly  
desirable  
Wealth Dictionary of the Economic Products  
of India - a mine of information on  
economic plants, native names, uses  
etc. Expensive, as it is out of print  
and difficult to secure

De Cancelli's Proceronius

17 vols 1824-1873. A series of  
important monographs by families. Not very  
expensive - prices \$75.00

De Cancelli Monographiae Phanerogamarum  
Important 9 vols. 1878-1896 continuation of the  
preceding - prices \$50.00

Blatter, Bibliography of the Botany of  
British India. Journ. Bombay  
Nat Hist Soc. Oct 30. 1911

about 1500 titles of the more important  
works on the flora of British India
