TO WHOM IT MAY CONCERN:

News has reached me that Walter Koelz, our former Botanist, spreads rumors that he is in possession of a letter signed by me retracting all accusations against him and apologizing.

I wish herewith to state that if Koelz produces any such letter, it can only be done as a result of forgery on his (Koelz's) part, for I have had no correspondence with the said Walter Koelz since his attitude has proven to be hostile, unethical and outrageous towards the Board of Trustees of Urusvati, Himalayan Research Institute of the Roerich Museum, as well as towards our entire enterprise. Neither did I sign the release, which has been voided since Koelz did not fulfill his obligations. I therefore will hold Koelz responsible for criminal action should he produce any letter signed by me after we severed connections with him.

Signed

Esther J. Lichtmann

Esther J. Lichtmann,
Vice-President
