To the Curator
The Roerich Museum
New York

Dear Sir:

I have recently retired from the Burma Frontier Service. I wish to inquire if you are willing to purchase birds' eggs - of the rare species from India and Burma - all properly authenticated clutches taken personally (with full data).

Also a few skins - I have 2 Kattiracva? lion skins I shot myself, right and left, for disposal, and one large Black Leopard. I can also get you skulls and horns of Mythan - a few serow (up to 11 1/8") and I think I have the record Malayan SanWhan?? head.

I return to Burma in September next.

yours truly,

(Signed) T.R. LIVESEY
Capt. FRGS: M.B.O.U.
