Dear Sir,

I read in the "Theosophist" that you are doing some research work on medicinal plants of Hindia according to the modern methods of pharmacy. May I know if you have published a book or a pamphlet of all such research works? If so, is it possible that I may have them? If your works were published in any magazine or paper, please refer them to ~~it~~ also with the address from where available. With many thanks & kindest regards,

Yours sincerely,  
Dr Consul
