Dear Sir,

We happen to have heard that Prof. Kohlman of Island has succeeded in photographing electrical radiations of the human body, and as we are very interested in this question, we shall be obliged if you would kindly put us in touch with him or forward this letter to him, with the request to kindly send us some publication or any available particulars on this question (in either English, French or German) and if you will please communicate to us the full address of Prof. Kohlman.

We shall be greatly indebted to you for your assistance in this matter and are, Dear Sir - with many thanks in anticipation

Yours very truly
